

## GENERAL STRIKE IN GREAT BRITAIN ENDS

### Luther Ministry in Germany Forced to Resign

### MILITARY UPRISING IN POLAND MENACES CAPITAL

### CABINET CHANGE IN GERMANY AS PLOT UNEARTHED

Flag Dispute Leads to No-confidence Vote in Reichstag; After Series of Raids the Berlin Police Say Fascist Plans of Violence Looked to Eventual Restoration of Hohenzollern Dynasty.

Berlin, May 12.—Chancellor Luther's Cabinet resigned to-day. President von Hindenburg accepted the Cabinet's resignation, but asked it to carry on for the present.

The resignation came after the Reichstag to-day had adopted a no-confidence motion against Chancellor Luther, introduced by the Democrats, by a vote of 176 to 146.

Chancellor Luther immediately waited upon President von Hindenburg.

A meeting of the Cabinet was held later in the afternoon, when the resignation was decided upon.

The defection of the Democrats was precipitated by the Chancellor's decree that the merchant flag, composed of the monarchist colors, should be flown side by side with the republican flag on German embassies and consulates abroad. The motion was supported by the Socialists and the Communists.

#### PLOT UNEARTHED

Berlin, May 12.—Discovery of detailed plans for the establishment of a German Fascist dictatorship whose object would be the restoration of the Hohenzollern empire "in renewed splendor" was announced by the police here to-day.

Continuing police raids on the homes of alleged German Fascist leaders, the police reported they had unearthed a mass of documents which included a detailed plan for concentrating an attack on Berlin.

While the police were questioning numerous political leaders of the alleged plot in an effort to get to the bottom of it, they said they regarded it as merely a dream worked out on paper.

#### TO OUST HINDENBURG

Among the documents taken by the police were plans calling for the forcible resignation of President von Hindenburg, the overthrow of the federal and state constitutions by armed force, the dissolution of all parliaments, the execution without trial of strikers as well as other opponents, the expulsion of Jews from Germany and confiscation of their property.

### CHURCH CONFERENCE HELD IN VANCOUVER

Affairs Discussed at B.C. Division of United Church of Canada

Vancouver, May 12.—The initial session of the second British Columbia Conference of the United Church of Canada opened in St. Andrew's Church here this morning with Rev. Dr. A. M. Sanford, president, in the chair, and Rev. Peter Henderson as secretary.

Three hundred and fifty delegates were present, including a large number of Presbyterians.

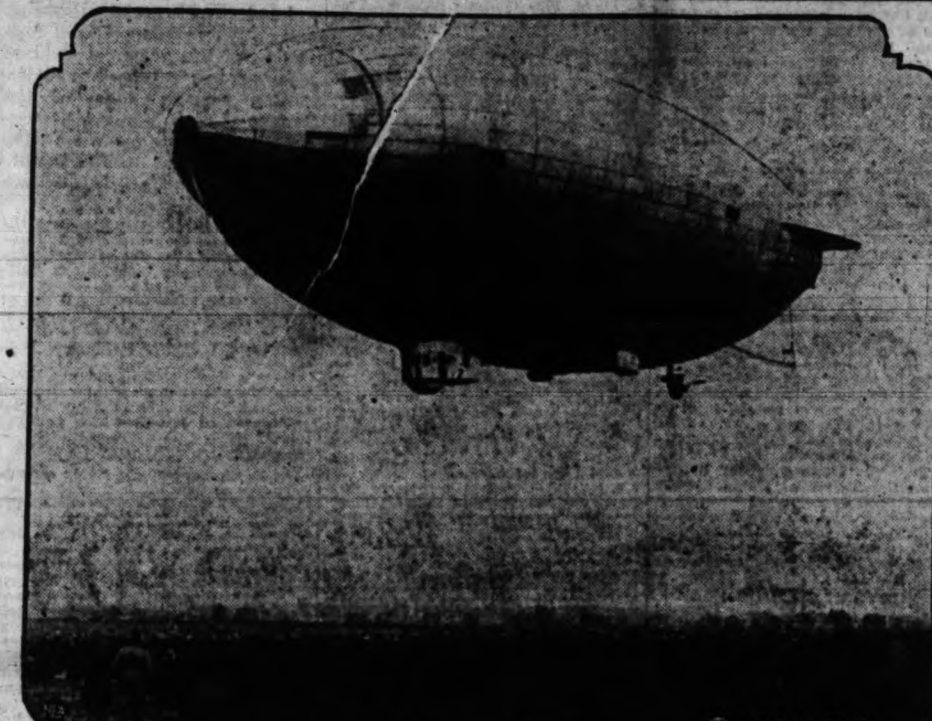

Rev. Dr. Henderson called attention to the news that the general strike had been called off in Britain, and a committee was appointed to draft a special resolution expressing satisfaction.

Rev. A. M. Sanford, D.D., principal of Columbia College, New Westminster, preached the conference sermon.

Much interest centres around the settlement committee, which has to do with arrangements between ministers and churches as to pastoral calls. In several cases, where two congregations of the United Church have been worshipping close together, changes are necessary and both ministers and official boards affected are meeting with the committee to expedite settlements.

Separate sessions of the clergy and to-night the joint convocation of Ryerson College and Westminster Hall will be held, when the address will be given by Rev. E. W. Stapleton, D.D., of Regina, formerly of Vancouver.

### FIRST DIRIGIBLE TO CROSS NORTH POLE; 17 MEN WERE ABOARD.

Above is a picture of the ship Norge, in which the Amundsen-Ellsworth party flew from Spitzbergen across the North Pole. The latest report indicates the dirigible is expected to reach Point Barrow, Alaska, on the way to Nome, at 7 o'clock this evening, Victoria time. At Nome the Norge is to be deflated, put aboard a steamship and sent to the United States.

### PILSUDSKI AT HEAD OF FORCES OF REVOLUTION ENTERS WARSAW TO OUST NEW ADMINISTRATION

London, May 12.—An Exchange Telegraph dispatch from Warsaw says Marshal Pilsudski, former President of Poland, heading a military uprising, has entered the capital.

Warsaw, Poland, May 12.—A military revolt broke out to-day at Rembertow, ten miles from Warsaw. Several regiments forming the garrison there mutinied and marched toward the capital. The mutineers reached Praga, a suburb, where President Wojciechowski went to make a personal request for their surrender.

This afternoon the Government was still trying to reason with the rebels, but meanwhile all measures were being taken to protect the city from invasion.

The Warsaw garrison remains loyal to the Government. An appeal has been broadcast for the population to keep order and obey the legal authorities.

#### NEW CABINET

The trouble began with the formation of the new Cabinet, under Premier Wlos, with Ministers chosen from the Right and Central parties. Adherents of Marshal Joseph Pilsudski, former President, last night staged manifestations and distributed leaflets declaring Pilsudski the only person fitted to head the Government. This morning the troops at Rembertow mutinied.

A communique signed by Premier Wlos said: "Criminal agitation has been going on in the army for some time, fomented by revolutionary elements. The mutiny occurred in the Rembertow region, due to the troops being alarmed by false rumors and led astray by false orders."

"The Government has taken the necessary measures with a view to maintenance of public order and protection of the capital."

"The President of the republic, as supreme chief of the army," he added, "has addressed the mutineers an order exhorting them to listen to reason and calling upon them to surrender."

Warsaw, May 12.—The Government announced in a communique this afternoon that it was in control of the situation and used by the military mutiny.

News Agency's correspondent in Warsaw says the semi-official Polish Telegraphic Agency to-day issued a communique confirming that several detachments of troops had mutinied.

REPORTED TO BERLIN  
Berlin, May 12.—A military revolution is reported to have broken out in Poland.

Army officers, adherents of former President Marshal Joseph Pilsudski, are reported to have taken control of the city.

(Concluded on page 16)

### Thermometer Climbs to 79 Degrees To-day

Yesterday's heat wave was exceeded to-day when the thermometer climbed a further point, touching seventy-nine degrees at 1 o'clock. According to Superintendent Napier Denison of Gonzales Heights Observatory, there is every indication that the heat wave that has struck the Province will last for seven or eight days. Campers and others are requested to exercise every precaution against fire, as the prevailing conditions seriously enhance the danger of forest fires.

### A. E. G. HALL GIVEN SENTENCE

Chicago, May 12.—A. E. G. Hall, formerly of Victoria, B.C., to-day was sentenced to the House of Correction for six months on a charge of obtaining money by false pretenses. Three fellow residents of a local hotel charged him with obtaining sums ranging from \$200 to \$235 on worthless cheques. On two charges of operating a confidence game Hall was held for the county grand jury.

### OAK BAY FLATLY TURNS DOWN CITY WATER RATE OFFER

Olive Branch Extended by Victoria Bears no Fruit, Says Reeve

Four-cent Rate or Joint Law-suit is Text of Reply

Victoria's offer of eleven cents per thousand gallons for water has been flatly turned down by Oak Bay. Immediately on receipt of the eleven cent offer from the city yesterday Reeve H. Anson called a special meeting of the Oak Bay Council. The new offer was rejected without further discussion.

In a counter proposal made to the City to-day Oak Bay offers to pay four cents per 1,000 gallons for city water, in place of the 12.2 cents and by the city to be the true cost. Reeve Anson's letter reaffirms its intention to stand on its argument that only the 1919 act applies, and reads as follows:

**MAKE COUNTER PROPOSAL**  
"We have to acknowledge receipt of your letter of the 11th inst. with reference to the price of water, and at the same time while appreciating the olive branch extended as we regret we are unable to find any olive branch."

Your offer of eleven cents per thousand gallons with discounts (Concluded on page 16)

### NEW EMBARGO MAY HIT RACE MEETS HERE THIS YEAR

Provincial Officials Await Word of Federal Rule Barring Mexican Horses

How new Federal Government foot and mouth disease regulations will affect British Columbia horse race meetings this year is not clear to race track operators here or to the Provincial Government. If the Federal authorities proceed as they are reported to be doing with the enforcement of an embargo against horses from Mexico a number of animals will be barred from British Columbia races, it is thought.

**AWAIT OFFICIAL WORD**  
No official word of the new embargo has been received at the Provincial Department of Agriculture, which keeps in close touch with the Federal authorities on these matters.

Ottawa dispatches state, however, that a shipment of Mexican horses bound for Calgary, was turned back at the Canadian border because the Federal Department of Agriculture has barred all animals from Mexico.

As many horses which race in British Columbia annually are in Tia Juana now, it is thought, that they may be prevented from coming here if the present order stands. It is expected official word of the new embargo will be received at the Department of Agriculture shortly.

### VERNON WOMAN ENDED HER LIFE

Vernon, B.C., May 12.—Mrs. George Bowler, about fifty years of age, died here yesterday as the result, it is believed, of drinking self-administered poison. When Mrs. Bowler telephoned yesterday from her husband's ranch near Vernon to say "Goodbye" to a friend who resides here, the latter suspected something amiss and telephoned to neighbors of the Bowlers, who went to their home. Mrs. Bowler, found lying on the floor, was brought to the hospital here, where she died despite medical attention.

#### NO LOCAL OPTION

Berlin, May 12.—The Reichstag rejected the local option bill on third reading yesterday, 241 to 162. This action followed two days of heated debate on prohibition, flavored with plentiful revivings of the experience of the United States in dealing with the dry laws.

The Socialists and Communists voted solidly for the bill, all other parties opposing it.

### ONLY MINE MEN IN BRITAIN ARE WORKLESS NOW

Calling Off of General Strike by Trades Union Congress To-day Enables Resumption of Negotiations to Terminate Coal Strike; Central Headquarters Instruct Members of Various Affiliated Unions to Return to Duties.

London, May 12.—The great British general strike was called off to-day.

The Trades Union Congress, which initiated the movement in sympathy with the striking miners, visited Premier Baldwin and his Cabinet Minister at No. 10 Downing Street at noon and announced the strike was over.

This action was taken, Chairman Arthur Pugh said, in order to enable a resumption of the negotiations for settlement of the miners' grievances, which negotiations the Government had declared could not be resumed while the general strike lasted.

The Trades Union Congress forthwith dispatched telegrams to this effect to the affiliated unions throughout the country.

The individual unions, before acting, must await definite instructions from their executive councils. However, it is expected instructions of the Trades Union Congress will have quick effect and that the wheels of industry, still stalled since last Monday week midnight, will begin to turn again almost immediately.

**OFFICIAL STATEMENT**  
The official statement of the settlement, issued from the Premier's residence in Downing Street, read:

"The Prime Minister, who was accompanied by the Minister of Labor, the Secretary for India, the Secretary for War, the First Lord of the Admiralty, the Minister of Health and Secretary for Mines, received the members of the general council of the Trades Union Congress at 12.30 o'clock this afternoon at No. 10 Downing Street."

"Mr. Pugh announced on behalf of the general council of the Trades Union Congress that the general strike was being terminated to-day."

**TELEGRAPHIC INSTRUCTIONS**  
"Mr. Citrine, secretary of the Trades Union Congress, afterward made the following statement:

"In order to resume negotiations, the general council of the Trades Union Congress has decided to terminate the general strike to-day and the telegrams of instructions are being flashed throughout the country by radio to the secretaries of all the affiliated unions."

"The members, before action, must await definite instructions from their own executive councils. However, it is expected instructions of the Trades Union Congress will have quick effect and that the wheels of industry, still stalled since last Monday week midnight, will begin to turn again almost immediately."

"Signed, Arthur Pugh, John Bromley, W. Citrine."

Almost as soon as the decision had been made known to the Cabinet it was flashed throughout the country by radio to the anxious public, who had been informed earlier that strong peace rumors were in the air.

In the London hotels and restaurants, where an orchestra of the great news was received with almost hysterical cheers and handclapping and a moment later, when an orchestra on the radio struck up "God Save The King" thousands sprang to their feet and stood at attention.

(Concluded on page 16)

### BRITISH MINERS TO VOTE ON FRIDAY

Delegates Then Will Decide Attitude on Negotiations to End Strike

London, May 12.—It is authoritatively stated that the vote on the general strike throughout Great Britain was absolutely unconditional. It is understood neither the miners' attitude nor the effect upon the miners' strike was mentioned during the thirty-minute interview between the general council of the Trades Union Congress and the Cabinet in Downing Street.

The miners' strike will continue, according to Secretary A. J. Cook, until the matter can be brought before a conference of miners' delegates on Friday.

"The miners' leaders have never deviated from their position," he said.

Herbert Smith, president of the Miners' Federation of Great Britain, said no statement was possible regarding the situation until the miners' position had been considered by the full executive of the union.

**LEADERS MEET**  
The executive was in session this afternoon.

Secretary Cook sent the following telegram to all the mining districts: "The miners must not resume work, pending decision of a national conference convened for Friday next in Kingsway Hall, London, at 10 a.m. Please send delegates."

Mr. Cook said this afternoon: "It is my intention and that of my colleagues to report fully to the national conference and it will be for the men to decide what action they will take in light of the circumstances after the report has been given. As far as we are concerned, we still maintain our previous position."

### COAL SUBSIDY IN BRITAIN TO CONTINUE

National Wage Board; Industry to be Reorganized; Strike Settlement Plan

Committee Including Miners' Representatives to Prepare Legislation Plans

London, May 12.—The memorandum prepared by Sir Herbert Samuel, which the general council of the Trades Union Congress accepted as the basis for the calling off of the general strike throughout Great Britain and the resumption of negotiations on the coal controversy, contains the following points:

1.—The coal subsidy to be renewed for such considerable time as may be required.

2.—Creation of a national wage board, including representatives of the miners, mine owners and neutrals, with an independent chairman, to revise the miners' wages.

3.—It is understood there will be no revision of the previous wages without sufficient assurances that reorganization of the coal industry as proposed by the Royal Commission will be completed.

A committee to be named by the Government, with representation for the miners, will prepare legislative and executive measures necessary to effect reconstruction of the coal industry.

The memorandum suggests the revised wage scales be on simpler lines, if possible, than the old ones, and that they must not adversely affect the wages of the lowest paid men.

It also suggests measures to prevent the recruitment of new workers over eighteen years old into the industry. If unemployed miners are available, and provides that workers displaced by the closing of uneconomic collieries are to be transferred, with government assistance, as recommended by the Royal Commission.

It is estimated 250,000 men will be displaced in the mining industry by the closing of collieries for complete reorganization of the industry.

Sir Herbert Samuel, as chairman of the Royal Coal Commission, which made the report on the British coal industry, about which the conflict centred, was the natural go-between in the settlement of the general strike.

### DAIRY CONDITIONS SUBJECT OF ATTACK

U.S. House Committee Asked to Sanction Tests For Milk From Canada

Washington, May 12 (Canadian Press)—Allegations that on inspection trips into Ontario and Quebec they had found sanitary conditions in dairies to be unsatisfactory were made before the committee on agriculture of the House of Representatives to-day by W. M. McDonough of the New York farm and markets department and C. P. Osgood, dairy inspector of Maine.

They were testifying in support of the bill to require milk and cream imported from Canada to stand the same test as required by New York State for domestic products.

D'Arcy Scott, general counsel of the National Dairy Council of Canada, and W. F. Stephen, vice-president of the council, questioned the witnesses.

Officers of the council will be heard later.

### OLIVER BARES FACTS OF LAND GRANT DEMANDS

Premier Reveals Formal Memorandum to Ottawa Clearing Misunderstanding

Ottawa dispatches having created a good deal of misunderstanding in regard to British Columbia's railway land policy, Premier Oliver to-day made public for the first time the terms of the provincial order-in-council by which this Province asks the return of large bodies of land to provincial control. This order-in-council fully outlines in an authoritative way the Province's claims.

At the same time the Premier denied flatly that the negotiations between his Government and the Federal Government over the railway land question had been terminated. These negotiations are still under way, he said.

**EXPLAINS B.C. STAND**  
Why British Columbia is claiming the ownership of the railway grant lands is explained in the provincial order-in-council made public by the Premier to-day as follows:

(Concluded on page 2)

### EXAMINATIONS IN PHARMACY REPORTED

Standing of Several Victorians Announced by B.C. Association

Vancouver, May 12.—Following the recent examinations, the council of the Pharmaceutical Association of British Columbia, announced the results to-day:

Victorians starred in not more than two subjects in the major examination included: Grahame Mann Harvey (botany); Richard Verran Jenkins (botany and chemistry); Robert John Steen (botany and materia medica).

In the minor examination Stuart Alexander Clement and Albert Burton Cross were successful and are entitled to receive certificates as certified clerks.

The following were starred in not more than two subjects in the minor examination: William Alfred Atherton; Victoria; Norman Rustie; Courtenay; and Norman Lloyd Duggan, Nanaimo; Malcolm Stewart, Cumberland.

### LOW MILK RATION LEADS TO COURT

Sailor Allowed Free on Suspended Sentence After Assault Charge

Short rations of milk lost Sidney Coleburn his job aboard the C.G.S. Malaspina, while on fisheries protection work recently in the Clayoquot Sound. Charged with common assault in City Police Court this morning Coleburn told his story to the magistrate and was allowed off on suspended sentence. Subsequent to trouble with the steward, R. P. Ashton, who was in charge of the mess tables on the ship, Coleburn

### Round Trip Fares East

The trip "Back East" is a vacation long to be remembered—interesting, instructive, decidedly worth while. Reduced fares will be offered every day by the Chicago, Milwaukee & St. Paul, commencing May 22nd. Return limit Oct. 31st. Stop-overs permitted. Beyond Chicago you have choice of routes. Below are some of the round-trip fares from Victoria:

Minneapolis	\$ 75.00	Niagara Falls	\$124.92
St. Paul	75.00	Ottawa	132.25
Milwaukee	75.00	Montreal	137.05
Chicago	69.30	Washington	145.86
Detroit	109.92	Philadelphia	149.22
Cleveland	112.86	New York	151.70
Toronto	118.05	Portland, Me.	153.20
Pittsburgh	124.06	Atlantic City	153.34
Buffalo	124.92	Boston	157.76

Take advantage of the reduced fares this year. Visit Minneapolis, St. Paul, Milwaukee, Chicago, or go farther and see the "Historic East," New England and Eastern Canada, New York and Atlantic City, Niagara Falls, or the many other points of interest.

To start and end your journey pleasantly, take the "Olympian" on the electrified "Milwaukee" to and from Chicago. You'll enjoy the distinctive service in its "Milwaukee" owned and operated Observation-Club Car, Sleeping Cars, and Dining Car—and the additional special conveniences provided, such as Ladies' Lounge, bath, barber, valet, library and writing room.

was given his discharge by the shipper of the ship.

On the stand this morning, Ashton, the informant, and the man who measured out the ship's milk, gave his version of the case. He had been assaulted by Coleburn, he said. Coleburn had insisted upon having more milk for the men. One day he had argued over this matter and Coleburn had laid hands on him and threatened to "knock his block off," witness said.

Coleburn himself admitted having laid his hand on Ashton's shoulder. But he had said that "someone" would "knock his block off" unless he changed his manner of address. Coleburn alleged Ashton had spoken without due regard for his feelings. Later Ashton had asked that the old troubles be forgotten. This happened in a certain house at Prince Rupert, while ashore, Coleburn said. He had been agreeable. They had shaken hands. Again, however, Ashton had tried to get him into an argument, but he had refused to be aroused. Coleburn said that the original trouble had started over short rations on the ship. On the day Ashton alleged he committed the assault there had been about a half a pint of milk in the jug on his mess table for eight men. He had complained and asked for more. Magistrate Jay said that the defence was not serious. He thought it a matter in which he might use his discretion and allow the accused off on suspended sentence.

### OLIVER BARES FACTS OF LAND GRANT DEMANDS

(Continued from page 3)

The undersigned has the honor to report:

1. That certain Terms of Union whereby the Colony of British Columbia entered the Confederation of Canadian Provinces, were approved by Her late Majesty Queen Victoria at the Court at Windsor by Order-in-Council, on May 15, 1871, pursuant to the provision of the British North America Act.

2. That under the provisions of paragraph eleven of the said Terms of Union, the Government of the Province of British Columbia agreed "to convey to the Dominion Government, in trust, to be appropriated in such manner as the Dominion Government may deem advisable in furtherance of the construction of the said railway (meaning the railway

previously mentioned, a similar extent of public lands along the line of railway throughout its entire length in British Columbia, not to exceed, however, twenty miles on each side of the said line, as may be appropriated for the same purpose by the Dominion Government from the public lands in the Northwest Territories and the Province of Manitoba.

### PLANNED RAILWAY

3. That at the time of the negotiation of the Terms of Union it was the avowed policy of the Government of the Dominion to secure the construction of the railway referred to through the medium of a railway company subsidized by the Government of the Dominion with large grants of land and small grants of money and that "it was not the intention of the Government to burden the Exchequer much to obtain this railway."

4. That the Terms of Union were based on the policy of the Dominion Government as herein outlined, but that policy materially changed to the disadvantage of British Columbia in that the construction of the railway was secured by:

(a) The expenditure of large sums (approximately \$3,000,000) of public monies in both surveys and construction, thus placing a heavy burden upon the Exchequer, and contrary to the avowed policy of the Dominion Government, upon which policy the Terms of Union were based;

(b) The granting in furtherance of the construction of the railway public lands less than one-half of the amount or area as set out in the declaration of the policy of the Dominion Government at the time when Terms of Union were being negotiated and upon which declared policy of the Dominion Government the Terms of Union were based.

### UNION AUTHORIZED

5. That the union of the Colony of British Columbia with the other provinces of Canada was authorized by Section 146 of the British North America Act of 1867, subject to terms and conditions approved of by the late Queen's Majesty, and such terms as Her Majesty approved of are contained in the said Order-in-Council of May 15, 1871, and no other.

6. That by Section 146 of the British North America Act the provisions of the said Order-in-Council, including the conditions stated in the accompanying Terms of Union, were enacted by the Parliament of the United Kingdom; and they could not be varied by any Act of the Parliament of the Dominion of the Province of British Columbia, or in any way short of an Act of the Parliament of the United Kingdom.

7. That public lands of the Province of British Columbia in excess of the lands required to be conveyed by the Terms of Union have been conveyed to the Government of the Dominion.

8. That the lands conveyed in excess of the Terms of Union appear to have been conveyed through a misunderstanding or misinterpretation of the said Terms of Union.

9. That the lands conveyed in excess appear to approximate upwards of 9,000,000 acres.

### GROUNDWORK OF UNION

9. That at the time of the negotiations of the Terms of Union it was intended that the public lands in the Provinces of Ontario, Manitoba, British Columbia and the Northwest Territories would be appropriated in furtherance of the construction of the railway, and it was on such intention that the Terms of Union were based, whereas the actual result is that over 9,000,000 acres of the Northwest Territories have been appropriated and used in furtherance of railway construction, and that the lands conveyed by the Province of British Columbia, and further that no public lands in Ontario or Manitoba were appropriated or used in furtherance of railway construction as intended by the Dominion Government at the time when the Terms of Union were negotiated, and which intentions were the groundwork upon which the Terms of Union were based.

10. That as the public monies expended by the Government of the Dominion in railway surveys and railway construction, as well as the public lands in the North-west Territories appropriated by the Dominion Government in furtherance of railway construction, were the common property of the whole of the people of Canada, including British Columbia, and further that no other Province of Canada (as a Province) was required to, or as a fact, did contribute either money or land in furtherance of the construction of the railway, it appears to be only just and right that (a) the lands upon which the Terms of Union having been swept away or materially changed) British Columbia should be placed upon an equality with the other Provinces of Canada in respect to the construction of the Canadian Pacific Railway by having the lands mistakenly conveyed to the Dominion Government restored to the Province of British Columbia.

AND TO RECOMMEND that the foregoing report be adopted.

AND TO FURTHER RECOMMEND that the Government of the Dominion be respectfully requested to take such steps as may be necessary.

MADE IN CANADA

GETS-IT

THE NERGA REACHED THE POLE

The news reached The New York Times and The St. Louis Globe-Democrat and was the first message ever received direct from the Pole, announcing the news at 3.05 Eastern Standard Time (12.05 a.m., Victoria time).

Commander Byrd saw the Norge off, but remained at King's Bay to prepare, in the words of Lieut. A. N. Parker of his party, to "investigate the Norwegian estate near the Pole for Uncle Sam."

Vilhjalmur Stefansson, Canadian explorer, now living in New York, expressed delight that the Byrd and Amundsen-Ellsworth expeditions were realizing a prophecy of his made three years ago, that aeroplanes and dirigibles flying over the Pole would open the shortest and most practical routes between the Eastern and Western Hemispheres.

Twenty-five men have now seen the North Pole—six in the Peary Expedition, Commander Byrd and his mechanician and seventeen on the Norge.

### FIFTEEN-HOUR TRIP

The Norge reached the Pole in fifteen hours from King's Bay. Commander Byrd required fifteen hours and thirty minutes to go to the Pole and back to King's Bay in his aeroplane, and Peary, using dogsleds, took eight months for the trip to the Pole and back to civilization.

The Norge traveled at fifty miles an hour and it was estimated that if she kept this pace, she would reach Point Barrow, en route to Nome, at 10 o'clock to night, Eastern Standard Time (7 p.m., Victoria time).

The ship lost eleven hours by the mere act of passing over the Pole. That is, on approaching the Pole it lost a day—day in the Arctic time aboard the ship, and a moment later it was 3 p.m. yesterday.

### DAYLIGHT VOYAGE

The whole 2,750-mile route was in the land of the midnight sun, making it a daylight trip throughout.

After passing the Pole, the Norge headed for an unexplored area estimated at 1,000,000 square miles. Explorers of the past have never had evidence of land in this area.

The trip from Nome to Nome, which began April 10, was laid out in five jumps, totaling 4,850 miles.

BLIMP WITH BACKBONE

The Norge is 244 feet long and was inflated with 12,000 cubic metres of hydrogen at King's Bay. Its beta speed is sixty-two miles an hour. It was built in 1923 by the Italian ship factory at Rome as the N-1 for the Italian air service and originally had a luxurious special cabin for the King of Italy. It carried the Italian flag on its stern beside that of Norway on its trip from Rome to Pulkham, England; Oslo, Norway; Leningrad,

Russia, Spitzbergen and then to the Pole.

The Norge, a non-rigid ship with a metal keel, is described as a "blimp" with a backbone. The metal keel runs from stem to stern and on it has an eighteen-inch runway called a "cat-walk."

THREE MOTORS

The vessel has three motors, and is steered by a wheel like any other ship. Sun compasses in the control cabin, under the keel, were used to check against the magnetic compasses, which are likely to be misleading so near the magnetic Pole.

The ship was equipped with a sled, tents and other essentials for a possible forced landing.

Amundsen, who is one of Norway's national heroes, was beaten to the North Pole by Robert E. Peary. He set out for the South Pole by dog-sled, reaching it December 14, 1911, beating four rival expeditions from as many countries.

G. AMUNDSEN HELMSMAN

His nephew, Lieut. Gustave Amundsen of the Norwegian navy, is a helmsman of the Norge.

Amundsen last year made the first attempt to reach the North Pole by aeroplane, but failed.

Ellsworth accompanied the Norwegian on his polar dash last year and was made second in command of the Norge.

### AWARDS MADE IN CATHEDRAL CONTEST

Many Boys and Girls Submit Drawings and Essays

Two Indian Boys Among Successful Competitors

Finding that the number of drawings submitted in the new Cathedral competition was more than four times the number of essays, the board of judges decided to award six prizes for drawings and three prizes for essays.

The best drawings received from older boys and girls were sent by R. Dove, 1029 Queen's Avenue, Victoria; James F. E. Clark, 1510 Montezuma Avenue, Oak Bay; and Cyril Connon, 3214 Quadra Street, Victoria.

Among younger children, the best drawings were those of Miss Aegon Archbold, Sefton College, Victoria; Patay Wilson, Indian Residential School, Alert Bay; Johnny A. Hum-shitt, Indian Residential School, Alert Bay.

The awards for the best essays were made to Miss Betty Halley, North Salt Spring Island; Miss Ruth Penman, George's School, Victoria; and Miss Jean Lennox, St. George's School, Victoria.

The quality of the drawings exceeded the committee's anticipations, and much fine work was exhibited by a number of young people. A feature of the competition was a large number of drawings by Indian children at the Anglican Residential schools for Indian boys and girls at Alert Bay. Two Indian boys were awarded prizes for their drawings.

B. C. Nicholas acted as chairman of the board of judges, and was assisted by the Ven. E. P. Laycock, Archbishop of Columbia; C. M. Keith, the Cathedral architect; Earl Clarke, Victoria High School; K. C. Symons, St. Michael's School; and Miss Jessie Roberts, South Park School.

### NORGE FIRST DIRIGIBLE TO CROSS NORTH POLE

(Continued from page 1)

continued a 2,750-mile journey to land at Nome.

Reald Amundsen, commander of the third expedition to reach the North Pole and the first human being to reach the South Pole, wired the Norwegian consul at Nome, to have 100 men ready to lower the dirigible. He said he would keep "Mr. Lomen" advised of progress by radio.

The Norge left Spitzbergen at 10 a.m. Norwegian time, or 5 a.m. Eastern Daylight Saving time (3 a.m. Victoria time), yesterday and sailed over the Pole with the seventeen members of its crew at 1 a.m. to night, Norwegian time, or 7 o'clock last night, Eastern Standard time (4 p.m., Victoria time).

### MESSAGE FROM POLE

The news reached The New York Times and The St. Louis Globe-Democrat and was the first message ever received direct from the Pole, announcing the news at 3.05 Eastern Standard Time (12.05 a.m., Victoria time).

Commander Byrd saw the Norge off, but remained at King's Bay to prepare, in the words of Lieut. A. N. Parker of his party, to "investigate the Norwegian estate near the Pole for Uncle Sam."

Vilhjalmur Stefansson, Canadian explorer, now living in New York, expressed delight that the Byrd and Amundsen-Ellsworth expeditions were realizing a prophecy of his made three years ago, that aeroplanes and dirigibles flying over the Pole would open the shortest and most practical routes between the Eastern and Western Hemispheres.

Twenty-five men have now seen the North Pole—six in the Peary Expedition, Commander Byrd and his mechanician and seventeen on the Norge.

### PREMIER OF BRITAIN URGES CO-OPERATION

No Malice Should Follow Ending of General Strike, Says Stanley Baldwin

London, May 12—Announcing in the House of Commons this afternoon that the general strike throughout Great Britain had been called off, Premier Baldwin said he and his colleagues would make immediate efforts to bring about a resumption of negotiations between the miners and mine owners with a view to securing the earliest possible settlement.

"I will only add this to what I have said to the House at this moment," said the Premier, "that the peace I believe has come and the victory that has come are the peace and victory of common sense, not of any one part of the country, but of the whole United Kingdom, and it is of the most importance that the British people should not look backward but forward."

"We should resume our work in a spirit of co-operation, putting behind us all malice and vindictiveness."

CHAMBER CROWDED

The House was packed to overflowing when Ramsay MacDonald, Labor leader, rose and asked the Premier whether he had any statement to make regarding the industrial situation. The Prince of Wales and his brother, the Duke of York, were again in the Peers' gallery, as they had been at every session since the strike started.

The Trades Union Congress immediately dispatched 160 telegrams to its general secretaries throughout the country and stated the railway services should approach normal tomorrow, with transport close behind.

Back in Downing Street there was further excitement as the news of peace spread and excited crowds surged through the police cordon to see Premier Baldwin leave No. 10, his official residence, for the House of Commons.

The cheer after cheer greeted the Premier as the heavy black door swung open and he stood facing a battery of cameras.

"Good old Baldwin," the crowd shouted and the Prime Minister was forced to raise his hat several times in acknowledgment.

### MRS. CHURCHILL SHOUTED

Mrs. Winston Churchill, wife of the Chancellor of the Exchequer, ran excitedly out of No. 10, waving a hand above her head, shouted: "Hurrah."

Premier Baldwin walked along the sidewalk, warmly shook her hand and immediately entered an automobile to be driven to the House of Commons.

Denser crowds at the corner of Downing Street and Whitehall stopped the car and the police cleared a way for it to Parliament Square.

### CHAMBER'S CHIEF IS HEADING WEST

C. P. W. Schwengers Leaves Ottawa To-day For Winnipeg Conferences

Word was received at the Chamber of Commerce to-day to the effect that C. P. W. Schwengers, president of the Chamber, and George I. Warren, public relations commissioner, were leaving for the cities of the United States following the Charleston U.S. Foreign Trade convention, are on their way west. They leave Ottawa tonight for Winnipeg.

Mr. Schwengers will address the Winnipeg Board of Trade while he is at the prairie city. He will also go into conference with grain company officials there. A discussion of negotiations with the Panama-Pacific Grain Terminals interests in Winnipeg, regarding the building of the grain elevator at this port, will occupy much of Mr. Schwengers' time while he is in Winnipeg.

Mr. Schwengers and Mr. Warren left Montreal yesterday for Ottawa. Their first jump in the homeward journey commenced to-day when they started for Winnipeg.

### New Way To Make Lemon Pie

Real lemon flavor, fine tang and zest, dainty meringue and delicious crust. You have never tasted better pie, nor have your men folk.

Try this recipe and see.

Lemon Cream Pie

One cup sugar; 1 1/2 eggs; boiling water; 3 tablespoons cornstarch; 3 tablespoons lemon juice; 1 egg; lemon juice.

Beat dry ingredients. Add eggs and mix. Boil water until thick. Add lemon juice. Cook and turn into baked pie shell. Bake in oven 15 minutes. Top with meringue and bake 10 minutes. Bake in oven 15 minutes. Bake in oven 15 minutes.

Ask for California lemons, juicy, tart and specially seedless—ideal for all flavoring.

California Lemons

### Chemainus

Special to The Times.—Chemainus, May 11.—Last Saturday an examination for sick nurse badges was conducted by Miss Jeffries, district health nurse, at the home of Mrs. George McInnes. Those examined were members of the First Chemainus Company Girl Guides.—Guides: Mrs. D. Ross, Miss G. McInnes and Guides: Violet Porter, Kathleen Porter, Evelyn Toyne, Enid Fraser and Coralie Fraser.

A large congregation attended the Mother's Day Service at Calvary Baptist Church on Sunday evening. Songs were rendered by Mrs. Oscar Olsen, and a quartette, Messrs. Evans, Campbell, Adam and Smiley. The address was given by the Pastor, the Rev. E. M. Cook.

On Thursday night the Chemainus Musical Society will give a concert in the Knights of Pythias Hall, Duncan. After the concert dancing will be indulged in till 12 midnight.

### Ladysmith

Special to The Times.—Ladysmith, May 12.—On the anniversary of the King's Birthday, Ladysmith Unit of the Army and Navy Veterans are holding a flannel

### FEDERAL BUDGET VOTE NEXT TUESDAY

Division in Commons Expected Then; Heenan and Chaplin Speak

Ottawa, May 12.—The vote on the budget in the House of Commons, under present plans, is expected next Tuesday.

Speaking yesterday afternoon Peter Heenan, Liberal, Kenora, Rainy River, Ontario, went at length into charges against the Provincial Government of Ontario. That administration "intimidated and persuaded," settlers who would not support Conservative candidates, he said. The people of Ontario were disappointed in the Provincial Government as they were in 44 per cent. beer.

G. B. Nicholson, Conservative, Algoma East, Ontario, rose to a point of order, declaring Mr. Heenan was not discussing the Federal budget, but rather the finances of Ontario and making charges against men who had no opportunity to reply.

Speaker Lemieux said he could not see the point of order.

Mr. Heenan replied to Mr. Nicholson by saying that instead of raising points of order he ought to be protesting against the "damnable practices of the Conservatives in Northern Ontario."

Speaker Lemieux insisted Mr. Heenan withdraw the word "damnable."

This was done and the word "rotten" was substituted.

Later Speaker Lemieux again called upon Mr. Heenan to confine his remarks to the budget.

Mr. Heenan replied he had noticed other members "wandered all over the country, talking of provincial affairs, strikes, lockouts and murders."

J. D. Chaplin, Conservative, Lincoln, Ontario, said the previous speaker was a Labor man who had not a word to say about the thousands of working people who had come to Ottawa on the recent delegation.

"We are selling them our raw material and they are taking our men with it," stated Mr. Chaplin in referring to the export of raw products to the United States.

Canada, on the other hand, was importing from the United States constantly increasing quantities of goods which could be made in this country, he said.

EGG DUTY URGED

"If the Government had the nerve to bring these people to time," he said in commenting on tariff conditions.

Mr. Chaplin was prepared to place a duty on eggs, so that the eggs would come into this country "what ever."

The Government, he said, had driven artisans out of the country and now it was proposing to drive money out.

"I warn the Minister of Finance that when the dollar is taxed excessively it will get away from him," he said.

Mr. Chaplin gave instances of increased income tax payments by those whose incomes were partly from Canadian dividends. The members of the Cabinet, he declared, had taken particular care of themselves by reducing the tax on incomes of \$14,000 from \$1,144 to \$670.

Refreshments were served to the gathering by members of the Lutton and Happy Valley Women's Institute.

The directors of the Farmers' Institute held a meeting at which it was decided to have a membership drive throughout the district.

Open Shop is Adopted Now For Tacoma Building

Tacoma, May 12.—The American plan or open shop was unanimously adopted here at night by fifty-seven general building contractors and sub-contractors. A majority of the contractors present reported to the meeting their work was progressing on schedule, with ample labor, regardless of the present controversy between contractors and carpenters regarding an increase in wages from \$2 to \$2.25 per day. The scale of wages indicated by the contractors in their vote to adopt the open shop was a maximum of \$2 per day.

dance on Thursday, June 3. The Veterans have the reputation of holding some of the best dances in Ladysmith and the committee promises that this one will be no exception. The hall will be tastefully decorated and ice cream and cake will be served for refreshments. Ray's orchestra has been engaged for the occasion and promise to give the dancing public the best.

### THEIR EXCELLENCIES MET COWICHAN I.O.E. MONDAY

Special to The Times.—Duncan, May 11.—Before proceeding to Mill Bay for the ceremony at the site of the proposed new Solarium on Monday, Their Excellencies Lord and Lady Byng, stayed for a few moments in Duncan.

They were met by the mayor of Duncan and members of the Cowichan Chapter, Imperial Order Daughters of the Empire, of which order Lady Byng is the honorary president.

Mrs. F. G. Christmas, the regent of the Cowichan Chapter, presented Lady Byng with a corsage bouquet of lilacs, the way, Lord and Lady Byng graciously shook hands with all the members of the order present, as well as many returned soldiers, and also visited the memorial cross before leaving in their car for Mill Bay.

### CARPENTERS' STRIKE IN VANCOUVER ENDS

Five-and Half-Day Week is to Be Continued Till May 1, 1927

Vancouver, May 12.—Work on several large buildings under construction in the downtown section of Vancouver, suspended for ten days by a carpenters' strike, was resumed today following settlement of the dispute at a series of conferences yesterday between representatives of the strikers and the General Contractors' Association.

Terms of settlement include continuation until May 1, 1927 of the five-and-a-half-day week, which the carpenters had sought to have reduced to four days, and an increase of fifty cents per day, to commence immediately. The new rate of pay for carpenters will be \$7.50 per day. Other members of the building trades organizations whose members ceased work in support of the stand taken by the carpenters returned to their work this morning throughout the city.

Provision was made for better co-operation between the contractors and the building trades unions in order that the danger of future strikes and lockouts might be avoided. It was agreed another conference would be held in March next year, when wage scales and working hours will be discussed with a view of forming an agreement covering building operations for the year 1927-1928.

### Luxton

Luxton, May 12.—An interesting meeting was held in the Luxton Monday night under the auspices of the Metcoshin Farmers' Institute. The interests of the goat and rabbit industries. The meeting was well attended, and Metcoshin, Langford and Colwood being also represented. It was considered a good representative meeting. The chair was taken by the president, C. E. Whitney-Griffiths.

George Plimer, secretary of the B.C. Goat Breeders' Association, gave an interesting and instructive address on the breeding and raising of goats for milk production.

Mrs. Simmonds gave a very practical address on rabbit breeding for profit. This lady commenced to keep rabbits as war work in Victoria in 1914, and has kept the work up since.

Mrs. Simmonds is secretary of the B.C. Rabbit Breeders' Association, and expressed her opinion that through co-operative effort and co-operative marketing, with proper attention to breeding for uniformity in coloring, a very profitable fur market can be established here.

Mr. C. E. Whitney Griffiths then called the meeting to order for general business, and the matter of the Fall Fair was brought up for discussion. The Women's Institute of the district and the hall committee had requested that the fair be held in Luxton this year, and upon the matter being put to the meeting last night the directors and fair committee were assured of hearty support from the district. It was therefore decided that an extraordinary general meeting of the institute will be called at Metcoshin, due and formal notice to be given, to put the matter before the members in proper form, and if it meets with the approval of the majority, to have the former motion passed at the annual meeting, which was to the effect that "a Fall fair should be held at Metcoshin" rescinded in favor of holding it at Luxton.

Refreshments were served to the gathering by members of the Luxton and Happy Valley Women's Institute.

The directors of the Farmers' Institute held a meeting at which it was decided to have a membership drive throughout the district.

## DENIAL IS MADE BARGE SEARCHED

Customs Officers Tell Commons Committee About Tremblay Seizure

Ottawa, May 12.—A visit to the barge Tremblay some time before her seizure on a liquor charge in the St. Lawrence River was described to the Commons customs inquiry committee yesterday by witnesses Charles Killoran, superintendent of customs examiners at Montreal, and Thomas Heavers, also of the Montreal customs staff, told of having gone down to the pier where the barge was moored, in company with J. E. A. Bissillon, then chief preventive officer at Montreal. One or two others went along. When they neared the vessel, the witnesses said, Bissillon halted them under a shed and went on alone. He was aboard three or four minutes, then he returned, and the party went back to Montreal.

### WATCHED BARGE

Killoran said he declined later to sign an affidavit presented to him by Bissillon declaring Killoran had searched the vessel. Officer Heavers gave similar evidence. They both signed when the word "searched" had been changed to "watched" in the document.

The detainer who arrested Bissillon in the barge Tremblay case, George Rioux, gave evidence.

The arrest had been made in December, 1924, at Bissillon's office. Bissillon carried only a small memorandum book. He later searched Bissillon's house. Bissillon had told him to do so.

"He invited you?" asked Hon. H. H. Stevens, Conservative, Vancouver Centre.

The detective said that when he got there the safe was unlocked and he took a number of books, cheques and documents.

RELEASED ON BAIL

When he arrested Bissillon he took him to Quebec, but Bissillon was released immediately on bail. No search had been made of Bissillon's person at the time.

Answering R. L. Calder, K.C., committee counsel, W. H. Hicklin of the Montreal customs said he could not recall any other occasion when such a large number of customs officers were out of Montreal at the time the Tremblay was seized. They had been sent to Rock Island, Que.

BOYS TO APPEAR

W. A. Boys, chief Conservative whip in the House of Commons, appeared before the committee and asked for permission to look over the file in the David Weyberg case. Mr. Boys said that on May 1 he had read in the Toronto newspapers a reference to himself in connection with this case. Had he known this case was to be brought up he would have deferred a visit to his home.

Chairman Paul Mercier handed him the file and told Mr. Boys he could appear Wednesday.

THREE GUARDS

The first witness called in the Tremblay case was W. L. Hicklin, of the Montreal customs. He stated Bissillon had taken charge of the seizure of the barge. From the office records he stated three men had been placed on "watching duty" at the barge by Bissillon. These men were Officer Duval and Port Officer Tilley and Allman.

"Is Hickey still there?" asked R. L. Calder, K.C.

"No, he's dead now," was the reply.

"How about Allman? Is he dead too?"

Mr. Hicklin replied he understood Allman was still alive and in the service.

Mr. Hicklin told of a mysterious telephone message he had received before the seizure from a person who was very anxious to get in touch with Officer Duval.

WANTED IN MONTREAL

The witness said it was not customary to tell who the preventive officers were, and he had refused to inform this person of Duval's whereabouts.

The voice on the telephone had explained that Duval's father was dying at Three Rivers.

However, when the witness offered to tell Duval this and send him to Three Rivers, the man at the telephone demurred. He wanted Duval to come to Montreal first.

"Was there a suspicion the barge Tremblay was smuggling liquor a month before this seizure was made?" asked Mr. Gagnon.

"Yes," replied the witness.

Shoe Factories In Quebec Idle

Quebec, May 12.—Following the decision of the members of the Quebec Foot and Shoe Manufacturers' Association to operate their factories on the open shop system, it was stated today that although their doors were open as far as production was concerned, the fourteen factories operated by members of the association were at a standstill.

The shoe workers, totaling some 2,000 men, directly affected by the unofficial walk-out, apart from a large number of boys and girls, are unemployed pending a settlement of the "complex" wage dispute which has handicapped the industry since November last.

Apart from the fourteen factories affected so, however, there are between twelve and eighteen other factories whose owners are not members of the association, and these are functioning normally.

FUNDS FOR STRIKERS

Montreal, May 12.—The Amalgamated Clothing Workers of America in session here yesterday afternoon, passed a resolution donating \$150,000 to the strike fund of the general council of the Trades Union Congress of Great Britain. The executive committee instructed at once to cable \$25,000 to the council in charge of the general strike.

APPOINTMENT URGED

Ottawa, May 12.—Senator W. A. Giesbach, Dominion president of the Army and Navy Veterans in Canada, has written Premier King urging that at least one of the two vacant Civil Service commissionerships should go to an ex-service man of standing and reputation both in the forces and in civil life.

## SOUTH AFRICA IS TO HAVE NEW FLAG

Design is One Chosen From Among More Than 3,000 Submitted

Capetown, South Africa, May 12.—The Hertzog Government has accepted a design for a new flag for the Union of South Africa. The design for the flag shows a vertical red bar next the staff and horizontal bars in green, yellow and blue.

The Union Jack will be flown in addition to the new flag on state occasions.

Early this year a commission representative of all parties in South Africa was appointed to select a flag for the Union. This step was the outcome of a friendly arrangement between General Hertzog, Premier and Nationalist leader, and General Jan C. Smuts, former Premier and leader of the South Africa Party in the House of Assembly.

More than 3,000 designs for the new flag were submitted to the commission.

### CHANGES IN HEARST GROUPS

New York, May 12.—George Hearst, twenty-two years old, eldest son of William Randolph Hearst, has been elected president of the New York American Inc., which publishes The New York American, according to an announcement. Joseph A. Moore, former president and treasurer, recently was named chairman of the board of the Butterick Company.

George Hearst entered the newspaper business in 1924, when he was made assistant publisher of The San Francisco Examiner.

### Plant Pests Are Fought by Experts

Vancouver, May 12.—L. S. McLean, chief of the division of foreign pest repression of the Federal Department of Agriculture, is expected to visit Vancouver about the beginning of June. It is probable that he, with Inspector W. H. Lorne of the local branch, will attend the conference of the Western Plants Quarantine Board at Olympia, Washington, June 3 to 11.

The board is composed of the chief representative quarantine officials of the Western United States, Mexico, the Hawaiian Islands and British Columbia, who confer together with a view to administering the quarantine laws in the most efficient and consistent manner, reducing both the commercial and purely protective obligations. For this reason the conference is also attended by representatives of transportation companies, nurseries and others vitally interested in the industry.

### NEW PLAN FOR LEAGUE COUNCIL

Geneva, May 12.—Viscount J. Cecil, British delegate to the commission studying the question of reconstruction of the League of Nations Council, yesterday introduced a proposal that the non-permanent members of the Council be increased from six to nine, and that they be elected for a term of three years.

### JOBSON PARADIS DIED IN ONTARIO

Quebec, Ont., May 12.—Jobson Paradis, distinguished Canadian landscape painter, died here yesterday. He was seventy-five years old. He was born in St. John's, Que., the son of Judge Paradis, of the Montreal district.

### ALBERTA SESSION

Calgary, May 12.—The adjourned session of the Alberta Legislature has been postponed from May 17 to May 24, according to advices received by local members of the Legislature from Edmonton. The session was formerly postponed from May 5 to May 17 in the hope the Federal Parliament would deal with the natural resources bill in time to allow the Government to complete provincial legislation respecting the transfer.

### A. MACDONALD TO LEAD LIBERALS IN NORTH SAANICH

Special to The Times

Sidney, May 12.—The North Saanich Liberal Association met in Matthew's Hall on Monday evening. There was a good attendance. The

president, A. MacDonald was in the chair. The election of officers took place as follows: President, A. MacDonald; first vice-president, R. W. McKay; second vice-president, C. Moos; secretary-treasurer, W. H. Dawes; executive committee, E. Blackburn, J. Matthews, J. Hembrey, S. MacDonald, T. Rigg, N. Watta, Grundon, Lee and T. Lidgate. C. H. O'Halloran of Victoria spoke on the organization in various parts of the country.

## BRITAIN WEATHERS THE STORM

**BRITAIN'S GENERAL STRIKE HAS** been called off. The miners will remain idle for the time being. Their course depends upon the result of a general conference of the Miners' Federation on Friday. On that day the Government's proposals will be submitted to delegates from all the mining centres of the country. Other industries will resume production at once.

Outstanding in the terms upon which negotiations with the miners will be renewed is an undertaking to continue the subsidy as long as may be necessary; that is to say, while the general reorganization of the coal mining industry is taking place. Before the men left the pits as a result of the posting of lock-out notices by the owners—which intimated that the old wage scale and longer hours of work would go into effect when the subsidy ended on April 30— they urged that this policy be followed for the time being and thus prevent the conflict which is now practically at an end. Another equally important point in the proposed formula for a settlement is the stipulation that a national wages board shall be established to revise the miners' wages. Hitherto the owners have resolutely refused to submit to revision on a national basis because there are so many mines at the present time which are losing money. That is to say, a national wage, insuring a fair standard of living, in Northumberland, for instance, and giving the owner fair return for his investment, would perhaps compel the owner of a Welsh mine to cease operations because of the additional loss that higher wages and less working hours would impose on an already unprofitable property.

Two obviously important principles are involved here. One emphasizes the fact that there is neither economic nor moral support for a contention that a miner should be compelled to make both ends meet in Wales on considerably less than a miner in Northumberland. The other brings out into strong relief the imperious necessity for such a measure of reorganization as will eliminate uneconomic production and produce the fullest measure of return from those properties which can, or ought to, pay a wage and recognize working conditions of a standard that is requisite to enable a miner to retain his self-respect and live in some semblance of comfort. If these reforms shall be brought about, a further continuation of the subsidy, costly to the taxpayer as it is, may be the cheaper form of settlement in the end.

One important fact will have to be faced and that is that the people of Great Britain have developed a new outlook since the war. It is not a revolutionary outlook by any means; it is an outlook which includes traditional respect for the institutions which have made Britain the free country she is to-day, but none the less an outlook which embraces the essential points of the country's social regeneration, the process which must be recognized if the nation as a whole is to progress with the rest of the world at a quicker pace. In this connection the Trades Unions of the country have rendered a distinct service and the new outlook which they have helped to produce ought to be considered excellent material upon which to base an equally new form of co-operation between Capital and Labor. It is to the credit of the Government that it did not insist on unconditional surrender, that it did not yield to pressure from those whose vision is still marred by the mist of Georgian days, that it maintained its respect for the place which Trades Unions hold in the nation's life, and refused to make a rod for its own and the country's back by trying to cripple them.

There is nothing for either side to crow about in a general way. General strikes are like wars—nobody wins these days. One thing still stands out, however, that a good deal of exaggeration was indulged in by those who closed their eyes to the great moral issue involved and saw nothing but red revolution and the constitution threatened. The result, moreover, proves that much of the warlike paraphernalia which was pressed into the service never was necessary, that good sense prevailed, that there is nothing very serious the matter with the relations between employer and employee, and that all that is necessary now is a mutual recognition that the world has progressed very considerably in the last ten years—that Britain must get into step.

## OVER THE POLE

**EXPLORER AMUNDSEN AND HIS** party, numbering seventeen, have flown over the North Pole in a dirigible airship. It is quite likely that Commander Byrd and his mechanician passed over that spot last Sunday. Both expeditions started from Spitzbergen, but the Amundsen one should be much more useful than Byrd's dash, if it should reach its destination safely, because the dirigible is flying clear across the polar sea to Alaska; careful and extensive observations can be made and the world's knowledge of polar geography and polar conditions greatly enlarged. Amundsen should be able to tell

us pretty clearly whether there is any land beyond what was noted en route by Peary, the first man to reach the North Pole, whose range of observation of course was much more limited than that of the airship investigator.

Public interest in expeditions to the North Pole, whether on ice or in the air, now will become faded. The promoters of the various other aerial expeditions to that objective might as well call off their projects, for there can not be enough thrill to justify the time, cost and energy of preparation in flying over a point over which nearly a score of other people have flown. Before long the tour over "the roof of the world" by air probably will be advertised by tourist agencies; it may become scarcely less commonplace than a visit to Tut's tomb, and not nearly so interesting as a railroad trip across the Andes.

While there is not much doubt that Peary was the first white man to reach the North Pole by the ice route, it is possible that neither Byrd nor Amundsen was the first man to fly over the Pole. Nearly thirty years ago A. S. Andree, a Swedish aeronaut, sailed from Spitzbergen with two companions and five tons of supplies in a balloon. They expected to steer by guide ropes dragging along the ice. They rose at 2.30 o'clock on the afternoon of July 11, 1897, and at 10 o'clock Andree threw over a buoy containing a message which gave their position at 82 degrees north, 25 degrees east, and said they were moving northeastward about 800 feet over a rugged ice-field. That was the last that ever was heard of him. As they never came back we do not know what they saw or how far they went.

Amundsen was the first explorer to reach the South Pole. He has had the unique experience therefore of having been at one pole and over the other. Polar exploration must now lose some of its novelty for him, although there still remains a trip around the world by the north and south route, which would take in both poles. Practically everything else has been done either on land or in the air.

## FASCISM FOILED IN GERMANY

**TIMELY CURIOSITY ON THE PART OF** the German police has disturbed a nice little plot to impose a Fascist dictatorship on the republic and restore Hohenzollernism. Elaborate plans apparently had been laid to depose President Hindenburg, to overthrow federal and state constitutions by armed force, to dissolve all Parliaments, to execute without trial all strikers as well as other opponents of the plan, and to expel all Jews from the country and confiscate their property.

This is a tall order; but typical of the disciples of Hohenzollernism, whose capacity for blundering in the face of public opinion has apparently not diminished since the eclipse of its chief exponent. Plans were obviously immature; but they would have had no more chance of success six months hence than they would to-day. The German people have had one dictator and it is not likely they are ready to put their necks into the noose again.

It is not surprising that the monarchists should want to depose of President von Hindenburg; he has disappointed them. Instead of turning out to be elay in their political hands—for no other reason than to use him for their own ends did they bring him out of obscurity—he has proved himself as much a statesman as he was a soldier. It is true that Hindenburg polled the monarchist vote; but much of it was sentiment and of republican trend. He did not flee his country in her hour of trial; he was a German then and has been more of a German since. Hohenzollernism, or Prussianism, is no match for him now.

No Fascist bloc will overthrow the German Republic at this stage. Thirteen million votes, or a little more than one million votes less than von Hindenburg polled in 1925, would have to be turned first. Add to this the number of voters who have swung to full approval of the present form of government since the President has shown himself a leader of the people in opposition to minority dictation, and Fascism's hopes look slender indeed.

## WHAT OTHER PAPERS SAY

### THE NEED FOR CAUTION

From The Paris Figaro  
The question is not to decide whether we should continue a war in Morocco, which it were in our duty to terminate immediately if it were in our power to do so. The question is to decide if the peace which has been suggested to us is not really going to be the opportunity for our adversary to recommence much more threatening operations later on.

### BUDGET AND PROSPERITY

From The Edmonton Journal  
The effect of the government's policy in promoting or retarding the prosperity of the country will be the subject of controversy during the budget debate. But whether it should be praised or blamed, it cannot be denied that there has been a very large improvement in the Dominion's economic position. The finance minister was justified in his statement that the era of depression has been overcome and that the skies are steadily brightening. All the statistical compilations which have been pointed out, prove this. Those who have followed these were already aware that such was the case.

### A STRONG UNION

From The Montreal Star  
A union between Germany and Russia would be a very strong union. If this union were added Japan, linked with whatever may exist of Government in China, the world would be confronted with by far the most formidable combination that could now be collected anywhere on the globe. China would be an inexhaustible recruiting ground for such an alliance. It would not really need any Government—it would only need a few more wars. A Russo-Japanese-Chinese union alone would be very powerful. Suggestions that such a union is in the air have been ominously frequent of late. But if Germany is to be added to this combination, the world's balance of power topples decisively in that direction. It would be just as well for Geneva not to push Germany too persistently into the arms of Bolshevik Russia.

## Other People's Views

Letters addressed to the Editor and intended for publication must be short and to the point. The longer an article the more likely it is to be cut. Communications must be signed and the name and address of the writer, but not for publication unless the writer desires it. The responsibility of the writer is assumed by the paper for MSS. submitted to the Editor.

### "RE EARWIGS"

To the Editor:—I see no reason why any garden should suffer from a plague of earwigs, or that any \$10,000 is needed to get rid of them, as suggested in your news column. A common and effective way to get rid of them in England was to place a iron-pot with a little hay stuffed in the top on a three-foot stake. And you will find them in there an hour or so after sun-down. The stake should not be too smooth, however. They are often found where dahlias are grown.

L. VAUGHAN.

## SAANICH LIBERALS CONVENTION

To the Editor:—With reference to the Saanich Liberal Convention which will take place at the Women's Institute Hall, Marigold Ave. on Wednesday, evening, May 12, at 7.30. It should be made known that this is an open convention and that all those residing in Saanich riding who possess Liberal principles are quite eligible to attend and vote on a candidate at this convention.

It has been drawn to my attention that an impression is gaining ground that the Saanich Liberal Association, as such, is not officially supporting N. Whitaker as a candidate at this convention. I might point out that it was a committee from this association that asked me the permit my name to go before the convention and I am informed by members of the executive that the association is not behind any of the candidates but that there should be an open field for all.

It appears to be true that Mr. Ramsay the elected secretary of the Saanich Liberal Association is going around with Mr. Whitaker, endeavoring Liberals for support of the convention, hence the reason that an erroneous impression may have been inadvertently created that the association had an official candidate before the convention.

ROBT. MACNICOL.

## Health and Disease

### IS GOLF DANGEROUS TO HEALTH?

Golf, as a menace to health and life of men and women of middle age and above, is a subject of interest whenever some prominent person dies suddenly on the links. It should be borne in mind, however, that for every such death there are thousands of others who die of heart disease and kidney disease, and who die of special physical exertion and for which golf cannot be held in any way responsible.

The underlying cause of sudden deaths in middle life and old age is the presence of degenerative diseases of the heart, blood vessels and kidneys. A person with advanced disease of the heart, blood vessels and kidneys, whether he knows it or not, is constantly seated on a powder barrel and an explosion is sooner or later pretty certain to occur. Excessive exertion, continuous or intermittent, may unquestionably hasten the end. Physical strain in golf is largely due to walking, especially on hilly courses. The exertion required to swing the club is not very great or should not be. More than half the stroke needed, even by a "duffer," demands little, more effort than that of swinging a cane in walking. Even the greater effort needed in using the driver, brassie and long iron is very apt to be diminished when age and stiffening muscles shorten the swing and slow up the "follow through."

There is no question, however, that golf may be, and often is, overdone. Not infrequently it is indulged in by those who, on account of their physical condition, should not play at all. Anyone who can afford to play golf can afford to pay for an annual medical examination. The number of holes to be played, if any, to be played should be based on the findings of one's physician. What golfers wish to do is to play on their own judgment and if possible, common sense, regarding his physical limitations.

Golf, like any good thing in life, may be abused. It would be a national calamity, however, for a false idea to prevail that there is anything intrinsically harmful in the game for those in normal health to enjoy the game. If health is impaired, if they be guided by competent advice.

### THE B.C. MEDICAL ASSOCIATION.

## Canadian Questions and Answers

### RED LAKE

Q.—Where is Red Lake?  
A.—Red Lake is an extensive, unsettled region of Northern Ontario near the Manitoba boundary. It is in the centre of a newly-discovered gold region and is attracting a rush of prospectors in order to locate claims. It lies in the area covered by the pre-Cambrian shield which is said to cover mineral deposits. Red Lake was present difficult of access, being a long distance from a railway. The assays of gold ore samples are claimed to show a high percentage of the yellow metal.

### CANADA'S AUTO BUSINESS

Q.—What is the extent of Canada's Auto Business?  
A.—Canada's Auto Business is steadily developing. The number registered in 1925 was 728,257, an increase of twelve per cent over 1924. No less than 1,000,000 were imported from Canada, valued at \$27,357,316, besides 16,000 freight automobiles worth \$1,945,500. Auto exports to the British Empire also indicate a steady development. The above figures are all the more remarkable when it is recalled that the first auto was sold in Canada as recently as 1887.

## Kirk's Wellington 139

## SOOKE OPENS MOTOR CAMP NEXT MONTH

**Beauty Spot at Whiffen Spit Will be Magnet for Tourists**

Special to The Times  
Sooke, May 12.—The property at the foot of Whiffen Spit, Sooke Harbor, consisting of about forty acres—one of the beauty spots of Vancouver Island, is being rapidly transformed into a tourist camp.

Sufficient land has been cleared along the seashore for the erection of temporary buildings, and the camp will be thrown open for tourists at the beginning of June.

Ever since the Whiffen Spit at Sooke has been made accessible by road a number of tourists have expressed a desire to camp there. The scenic beauty of the place and the combination of the open sea, the harbor, as well as farm and forest, have exerted a great attraction upon visitors, so that the Sooke Industrial Development Company has decided to establish a camp for summer visitors.

The camp will open on June 1, and by that date will be able to accommodate 300 visitors. There is virtually unlimited room for further expansion.

## Clash Occurs on Bulgarian and Rumanian Line

Bucharest, May 12.—A band of comitads (Bulgarian irregulars) is reported to have attacked a frontier post in the Dobruja district, and killed a soldier.

Five captured bandits were killed while attempting to escape.

## Do You Mean What You Say?

The Register and Tribune Syndicate, Des Moines

The term "quack" was first merited by the itinerant traders and patent medicine vendors who "quacked" as noisily as ducks, from street corners, where they attempted to dispose of worthless wares. Hence, anyone nowadays who tries to market goods which are not trustworthy or who practices a profession which he does not thoroughly understand, is called a "quack." The "quack doctor" was formerly called a "quack salver" because of the salves and lotions which he dispensed to the crowds at the street corners.

Victoria, May 11—5 a.m.—The barometer has fallen on the Coast, and fine, hot weather prevails on the Pacific Slope. Rain is reported in Northern Saskatchewan.

Reports  
Victoria—Barometer, 30.10; temperature, maximum yesterday, 61; minimum, 44; wind, 4 miles N.; weather, clear.

## LECTURER TELLS OF WOMEN'S FIGHT IN FIELD OF WRITING

**John Hosie of Provincial Library Gives Interesting Talk**

A delightful and stimulating address was given by John Hosie of the Provincial Library, before the Victoria and Islands Branch Canadian Authors' Association last evening in Victoria College.

Mr. Hosie dealt with "Women Writers," against whom there has been such long-lived and stubborn opposition, but who in this woman's century have attained supremacy notably in the field of fiction.

From the golden age of Sappho to the present day the speaker showed the struggle of women writers against unfair and senseless prejudice and cited George Eliot, the Bronte sisters and others, whose marked success was made possible by their concealed identity under a masculine nom de plume. That the prejudice is still alive in certain quarters and among otherwise enlightened individuals, the speaker found surprising.

OPERATED BY WOMEN  
To combat this opposition a publishing house and book shop, owned and operated by women, has been successfully established in New York. Mr. Hosie referred to Sheila Kay Smith and Rose Macaulay in England and Edith Wharton in the United States as leaders in fiction, the latter he designated a stylist, her books finished works of art.

Reference was also made to the world-wide popularity attained by L. Adams-Hack. Mr. Hosie drew interesting comparisons between the work of Thomas Hardy and the work of Sheila Kay Smith; the latter has dealt most successfully with the farming population of Sussex. Hardy has immortalized the rural inhabitants of Wessex, while both are deeply familiar with the country and the nature of the people, which they depict with distinct and wonderful realism. Sheila Kay Smith has the saving grace of humor which Hardy entirely lacks. The speaker quoted from various novels by Sheila Kay Smith, notably, "Sussex Gorse," "Challenge to Sirius," "Green Apple Forest," "Joanna Godden," which in his opinion prove her to be the first of all novelists of her time, male or female.

FARMING PEOPLE  
Mr. Hosie commented upon the fact that the farming people of Canada, of British Columbia, and more particularly of Vancouver Island would some day be written of and that the field was vast and fraught with romance.

Rose Macaulay's brilliant satiric qualities were cleverly dealt with in brief surveys of her books which were characterized as true pictures of the struggle for readjustment in post-war conditions.

Donald Fraser in the chair thanked Mr. Hosie for his much appreciated discourse, and a general discussion followed during which some of the writers present told of criticisms they had found most helpful in their work.

V. I. Denton, who congratulated upon the success of his interesting and unusual book "The Far West Coast," and Mr. Fraser read from "The Canadian Bookman for April," "A Peter Pan of Literature," by N. de Bertrand Lagrin.

Coffins containing two mummified horses, the first ever discovered in Egypt, have been found in the pyramids of Sakkara, south of Cairo.

## A RECEPTION

**In Honor of Their Excellencies**

**Baron Syng of Viny, Governor-General of Canada, and Lady Syng**

## WARNICKER TALKS TO LIFE UNDERWRITERS

**Association Picnic Will be Held Towards End of June**

Under the chairmanship of President Shade, the local body of the Canadian Life Underwriters' Association assembled for lunch yesterday noon in Spencer's private dining-room, and afterwards passed into solemn convalescence on business affairs. Then came the principal item of the programme, a stirring address by J. B. Warnicker, local manager of the Manufacturers' Life Insurance Company, in which he moved his fellow insurance men to much enthusiasm by his clear-cut, well-told analysis of his subject.

He pointed out that man has a logical mind and ultimately accepts that which is best. All good things have in the past been resisted, even the locomotive and the steamboat, but when understood these and a thousand other things had been accepted and incorporated in the lives of men. So with life insurance with its provision for old age and disability. Many did not know of these advantages of a life insurance policy, and it is the duty of the underwriters to remove this ignorance and bring the minds of men to clearly see in the matter. Then their work would prosper to the ultimate good of all.

A hearty vote of thanks was accorded Mr. Warnicker.

It was announced that the association picnic would take place towards the end of June, the actual date to be fixed at the June meeting of the association.

## END OF JULY WILL SEE NEW HIGHWAY READY FOR MOTORS

**But Government Will Not Encourage Heavy Traffic on Cariboo Road This Year**

While British Columbia's new Cariboo Road, forming the last link in the Trans-Pacific Highway, will be completed by the end of July, travel over it will not be encouraged this year, Hon. H. W. Sutherland, Minister of Public Works, stated to-day after his return from the mainland.

"The date of the road opening had not been arranged yet but the work will be completed by the end of July," the Minister said. "The opening ceremonies are not being arranged by the government but are in the hands of automobile organizations. They plan to hold them, I believe, about the middle of August."

"In a new road like that along the Fraser Canyon there is bound to be a certain amount of settlement of the surface. On this account we are not encouraging heavy travel over the road this year. Next year after settling through thoroughly it will be

## TAG DAY TO AID MEMORIAL PARK

Appeal Saturday For Spring Ridge Playground, Stevenson Memorial

Two excellent causes—the perpetuation of the memory of the late Rev. William Stevenson and the happiness of children—will be served by the appeal which is to be made on Saturday through the medium of a tag day.

The appeal is to be made for funds for the maintenance of the park at Spring Ridge, which through the efforts of the Stevenson Memorial Committee, has been converted from an eyecore and a dump-heap into a little oasis in which the children of the district can play to their heart's content.

The park represents one of the steps taken to perpetuate the memory of the former minister of Emmanuel Baptist Church, the late Rev. William Stevenson, who spent his life in the service of others, particularly for the children, and it is the only playground in the district.

Taggers needed for Saturday, and anyone willing to assist in this very worthy cause is requested to communicate with Mrs. H. W. Graves, the convener, at 6241 R.

**Women's Educational Club**—The monthly meeting of the Women's Educational Club will be held at the home of Mrs. MacLachlan, 3021 Quadra Street, on Thursday, May 13, at 8 p.m. The speaker will be Mrs. J. A. Dillworth, M.A., who will give an address on "Contemporary Poetry and Social Programme" is also being arranged.

## Eight Women in Ten

have discarded old hygienic methods for this new way—true protection—discards like tissue.

When the world started expecting more of women, the old-time "sanitary pad" had to go. Doctors urge a new way. Millions employ it. You wear sheerest frocks without a second thought, any time, anywhere. You meet every day unhandicapped.

It is called "KOTEX" ... five times as absorbent as the ordinary cotton pad!

Thoroughly deodorizes ... thus ending ALL fear of offending.

Discards as easily as a piece of tissue. No laundry. No embarrassment.

You ask for it without hesitation simply by saying "KOTEX," at any drug or department store. Costs only a few cents. Proves old ways an unnecessary risk.

## "WOLF'S" DAUGHTER TO SEEK TREASURE

Alice Worthington Searching For Hidden Fortune in Mexico

Los Angeles, May 12.—Alice Worthington, daughter of John W. Worthington, Chicago broker, known as "The Wolf of La Salle Street," who died in Atlanta penitentiary while serving a sentence for fraud, will return to Los Angeles from Chicago to lead a treasure hunt into Mexico seeking \$500,000 said to have been buried there by her father, according to Harry Pike, Los Angeles automobile man and friend of Miss Worthington, the Los Angeles Examiner said.

According to Pike's story, Worthington accumulated the half million in bonds and gold certificates while he was a patient in a sanitarium near Los Angeles prior to his flight to Mexico and buried near Ensenada, a seaport of Lower California. Another fortune was cached by Worthington in Mexico City, Pike is quoted as saying, but this was "hijacked" by a group of Chicago men who had been following on the trail of the fleeing broker. Efforts of the same group to find the Ensenada cache have been unsuccessful, Pike said, the only person knowing the exact hiding place refusing to tell any one except Miss Worthington.

of Vancouver, who has arranged a delightful itinerary for the party from Victoria and other sections of the Province who will visit Europe this summer, under the auspices of the League of Empire.

## YOUR BABY and MINE

by MYRTLE MEYER ELDRID

Mrs. Eldrid will be glad to answer all questions pertaining to babies and this office will bring a personal reply.

### BATHING THE WEE BABY

The first question that is asked most young mothers when their friends have begun to visit them is: "Have you bathed the baby yet?"

The first bath is an affair calculated to shake the heart of the most courageous. The baby, handled so deftly by the nurse, seems to the mother's inexperienced hands to be a slippery bundle of bones which at any wrong movement will wriggle out of her hands and break to bits.

For this very reason it is far better for the new mother to bathe the baby on a good sized table, or on a bed, if she hasn't a table which can be used, than to try and accomplish the miracle on her lying lap. Place a good-size, folded blanket on the bed, first protecting it, or the table, with a piece of oil cloth. Put the baby on the blanket and the tub beside him. Have the clean clothes arranged in the order of their going off, before the bath begins. Slip a bath thermometer (which only costs twenty-five cents and is a great worry saver), in the water and see if it registers between 98 to 99 degrees. Have a toilet basket with soap, wash cloths, salt water (in a covered bottle, or boric acid water)—talcum powder, olive oil, toothpicks and absorbent cotton, right at hand.

## LO.D.E. HONORED MISS MACKENZIE AT RECEPTION

Delightful Function at the Alexandra House Yesterday; 300 Present

While members of the L.O.D.E. have participated in numerous functions complimenting Miss Helen Mackenzie since her assumption of the role of chaperone of Government House, it was not until yesterday that opportunity presented itself for a welcome "en masse" to their new honorary provincial president. The occasion was the reception arranged by the Municipal Chapter in her honor and held at the Alexandra House, and attended by nearly three hundred members. Masses of golden broom, purple lupinus, roses and other Summer flowers banked the walls and were used in the vases which centred each small tea-table. At the principal table were seated Miss Mackenzie, with Mrs. J. Hebert Gillespie, Municipal regent; Mrs. Curtis Sampson, Mrs. A. F. Griffiths, Provincial president; Mrs. W. C. Nichol, Mrs. L. B. Kent, Mrs. E. C. Hayward, Mrs. D. E. Campbell, Miss Hall, Mrs. J. R. Green, Mrs. H. K. Prior, Mrs. R. B. McKelving, Mrs. Gordon Smith, Miss Alexander and Miss Margaret Campbell.

After Miss Mackenzie had been welcomed by Mrs. J. Hebert Gillespie, Little Miss Diana Hammond and Miss Elizabeth Garrett, of the Royal Chapter, in quaint old-world costume, danced a graceful minuet. At the conclusion of their number which was warmly applauded, they presented the guest of honor with a lovely basket of flowers.

Miss Margaret Campbell, the gifted young pianist and pupil of Mrs. Gertrude Huntley Green, delighted the gathering with a program which included "Pastorale and Variations" (Mozart); "Capriccio" (Paganini); "Etude" (Arensky); and "Seguidilla" (Albeniz); and as an encore, Palmgren's "Berceuse."

The members of the Daisy Chain Chapter, L.O.D.E., helped with tea, those assisting Mrs. Umbach, the regent, being the Misses Eleanor Johnson, Kathleen Brown, Elaine and Mickey Gallier, Mary Sutherland, Doris Brown, Margaret Armstrong and Gertrude Hill.

The decorations were in the hands of the Gonzales Chapter, under the direction of Mrs. L. A. Genge, and the Esquimalt Chapter was responsible for the basket of flowers given to Miss Mackenzie and arranged by Miss Pooley.

## Charleston Dancers Invited to Step For City Championship

Entries are invited for the Charleston competition for the city championship to be held in conjunction with the Carnival Frolic on Yates Street Saturday evening, May 15. Prizes will be awarded to the winners of the competition. Entries are to be handed to G. B. Sylvester, chairman of the contest, at the office of W. H. Davies at the office of the Empire Realty Company, Fort Street.

Welcome Club—The Welcome Club will meet on Thursday, May 13 at the Y.W.C.A. This is a social evening and all members are asked to prepare to do some sewing. This club is open to any girls who would care to join them, especially any who are strangers in the city.

## SOCIAL WOMEN'S AFFAIRS AND CLUB NEWS

## Gums Like Coral

Teeth with that dazzling whiteness you see

This new way brings them quickly. Send the coupon

DENTAL science has found a new way to lighten cloudy teeth. A way that often changes a person's whole appearance. Your teeth, it's learned, are not naturally off color—simply coated with a film that absorbs discolorations from food, smoking, etc.

You can feel that film now with your tongue; a slippery sort of coating. It is there largely because your present dentifrice is failing in its duty. Ordinary dentifrices don't fight film successfully and brushing won't do it.

Clear it off. See the amazing difference made. Get Pepsodent at any drug store. Or send the coupon for test tube free.

Now a new-type dentifrice has been discovered. A film-removing paste called Pepsodent. Famous \$100,000 movie stars use it before going on a scene. That's why movie smiles are so gleaming white.

Leading dentists urge it because it protects the teeth and firms the gums. Film breeds bacteria that invite tooth troubles and pyorrhea. It is there now imperiling your teeth, your gums; making your smile unattractive.

## "I'll see you again, Doctor"

He is who who goes to his dentist regularly for teeth and gum inspection. Many serious illnesses which originate in the mouth may be prevented by modern dentistry. See your dentist at least twice a year. It pays.

4 out of 5

## get pyorrhea through neglect

Pyorrhea, dread disease of the gums, attacks four persons out of every five past forty because they are careless of Nature's warning.

It starts with tender bleeding gums. Later the teeth loosen in their sockets and poison is spread throughout the system, often causing rheumatism, neuritis and other sickness.

If you have pyorrhea go to your dentist at once for treatment. He can help you. To prevent pyorrhea consult your dentist at least twice a year, brush your teeth night and morning with Forhan's for the Gums.

Forhan's is the formula of a registered dentist. It contains Forhan's Pyorrhea Liquid which has been used by dentists for the last 15 years in the treatment of pyorrhea.

If used regularly and used in time, Forhan's for the Gums will prevent pyorrhea or check its progress. It is a pleasant dentifrice which serves a dual purpose: it cleanses the teeth and wards off dread pyorrhea. All druggists, 35c and 60c in tubes.

Formula of R. J. Forhan, D.D.S.  
Forhan's, Ltd., Montreal

## Forhan's FOR THE GUMS

More than a tooth paste—it checks Pyorrhea

## Soviet Unions Collect Money For British Miners

Moscow, May 12.—The Council of Trade Unions of Soviet Russia learned of the refusal of the British Trades Union Congress to accept financial aid to support the strike in Great Britain from foreign, including the Soviet trade unions. It therefore has decided, first, to return to the trade unions the sums which had been contributed; second, to continue collections on behalf of the British miners, and third, to deposit all sums collected in a special fund for the British miners. This fund is to be placed at the disposal of the general council of the British Trades Union Congress or the British Miners' Federation at their request. In announcing this decision, the General Council of Russian Trades

Unions stated that in organizing the collections and transferring the proceeds to the British strikers, amounting to 2,225,000 rubles, the general council was guided by the principle of solidarity. It further declared the special agreement for a united front to be maintained by the British and Soviet trade unions had been strengthened by the creation of an Anglo-Soviet unity committee.

## JEWEL ROBBERY IN CHICAGO

Chicago, May 12.—Samuel Brandler, jewelry salesman and member of a New York firm bearing his name, reported to the police last night he had been robbed of uncut diamonds valued at \$100,000 by three young men who encountered him while eating in a restaurant. They asked him for his jewels and struck him over the head when he protested he had none.

## Children Cry for

## Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## BEDTIME STORY

## Uncle Wiggily's Lemon Squeezer

Copyright, 1926, by McClure Newspaper Syndicate

By HOWARD R. GARIS

Hopping along through the woods one afternoon, Uncle Wiggily heard a rustling in the bushes behind him, and stopped to listen.  
"But perhaps I had better not stop," thought the rabbit gentleman a moment later. "This may be one of the bad chaps coming after me!" He was about to hop on, but all of a sudden, he heard a little, gentle squeaking voice exclaim:  
"Oh, dear! The bottom has fallen out and everything is spilled!"  
"Hail! I know that voice!" said Uncle Wiggily with a laugh. "It isn't that of a bad chap. It's the

## What's the matter, Lady Mouse?

Lady Mouse Teacher from the Hollow Stump School, unless I don't know my lesson!"

But the rabbit knew this lesson, at any rate, for it was the Lady Mouse Teacher and there she stood, behind a mulberry bush, looking very sad as she seemed to be picking things up from off the ground.

"What is the matter, Lady Mouse?" asked Uncle Wiggily. "From what has the bottom dropped, and what is all spilled?"

"The bottom has dropped out of my paw bag," exclaimed the Lady Mouse, "and all the things I carry in it are spilled—my keys, my handkerchief, a bit of nibbling cheese and—other things," she said with a cute little blush.

Uncle Wiggily hopped over beside the mulberry bush and saw what had happened. The Lady Mouse had been carrying, as do real ladies, a bag; only hers was a paw bag instead of a hand bag. It was old and worn, was this paw bag, made from the white bark of a birch tree, and the bottom had worn through and dropped off.

Uncle Wiggily helped the Lady Mouse pick up her school keys, her handkerchief, some papers, a chunk of nibbling cheese and a little bottle with a rubber ball fastened to it. "Did you take this away from some one in school to-day?" asked the rab-

bit, holding up the rubber ball bottle. "Oh, no," answered the Lady Mouse. "That is my perfume sprayer. It is filled with perfumed water and I spray it on my handkerchief now and then, and she blushed a little.  
"No need to blush!" laughed Uncle Wiggily. "Most ladies use perfume. I like it myself," and he gave the rubber ball a pinch so that some of the sweet smelling water sprayed on his pink, twinkling nose and tickled.  
"But you need a new paw bag, Lady Mouse."

"Yes, I know it," said the animal children's school teacher. "But I shall have to make this answer until next term."

Uncle Wiggily didn't say any more as he helped the Lady Mouse pick up the things that had fallen from her worn-out bag, but he was doing much thinking. And what he thought was this:

"The Lady Mouse is poor. She isn't paid much for teaching in the

Hollow Stump School. She can't buy a new bag, but I will make her one. I will make her a fine, new, big green paw bag."

No sooner said than done! Uncle Wiggily next day picked a large burdock plant leaf. He folded this up in the shape of an animal lady's paw bag and then he had the tailor bird sew the edges with strong grass threads.

On the outside of the green bag the bunny gentleman had Mrs. Spin Spider weave a design in silk cobweb pattern, until it looked just like something that could be bought in the fifteen and sixteen cent store.

That afternoon, when the new bag was finished, Uncle Wiggily took it to the Hollow Stump School. Classes were just being let out when he hopped in and gave the present to the Lady Mouse.

"Oh, a new green bag for me! How lovely!" she squeaked. "And a new handkerchief, and a new piece

of cheese and a new squirter bottle of perfumed water!" she cried, clapping her paws. "Oh, how wonderful!"

She took out the bottle of perfumed water and just then, all of a sudden, the Hollow Stump School caught fire from a little lightning bug, who was just learning to fly, and who tumbled down on the roof. "Fire! Fire! Fire!" shouted the animal children. "Call the engines!"  
"Be calm, my dears!" squeaked the Lady Mouse. "I will put out the fire with the perfume squirter Uncle Wiggily gave me in my new green bag!" And she did. One squirt and the lightning bug fire was out.

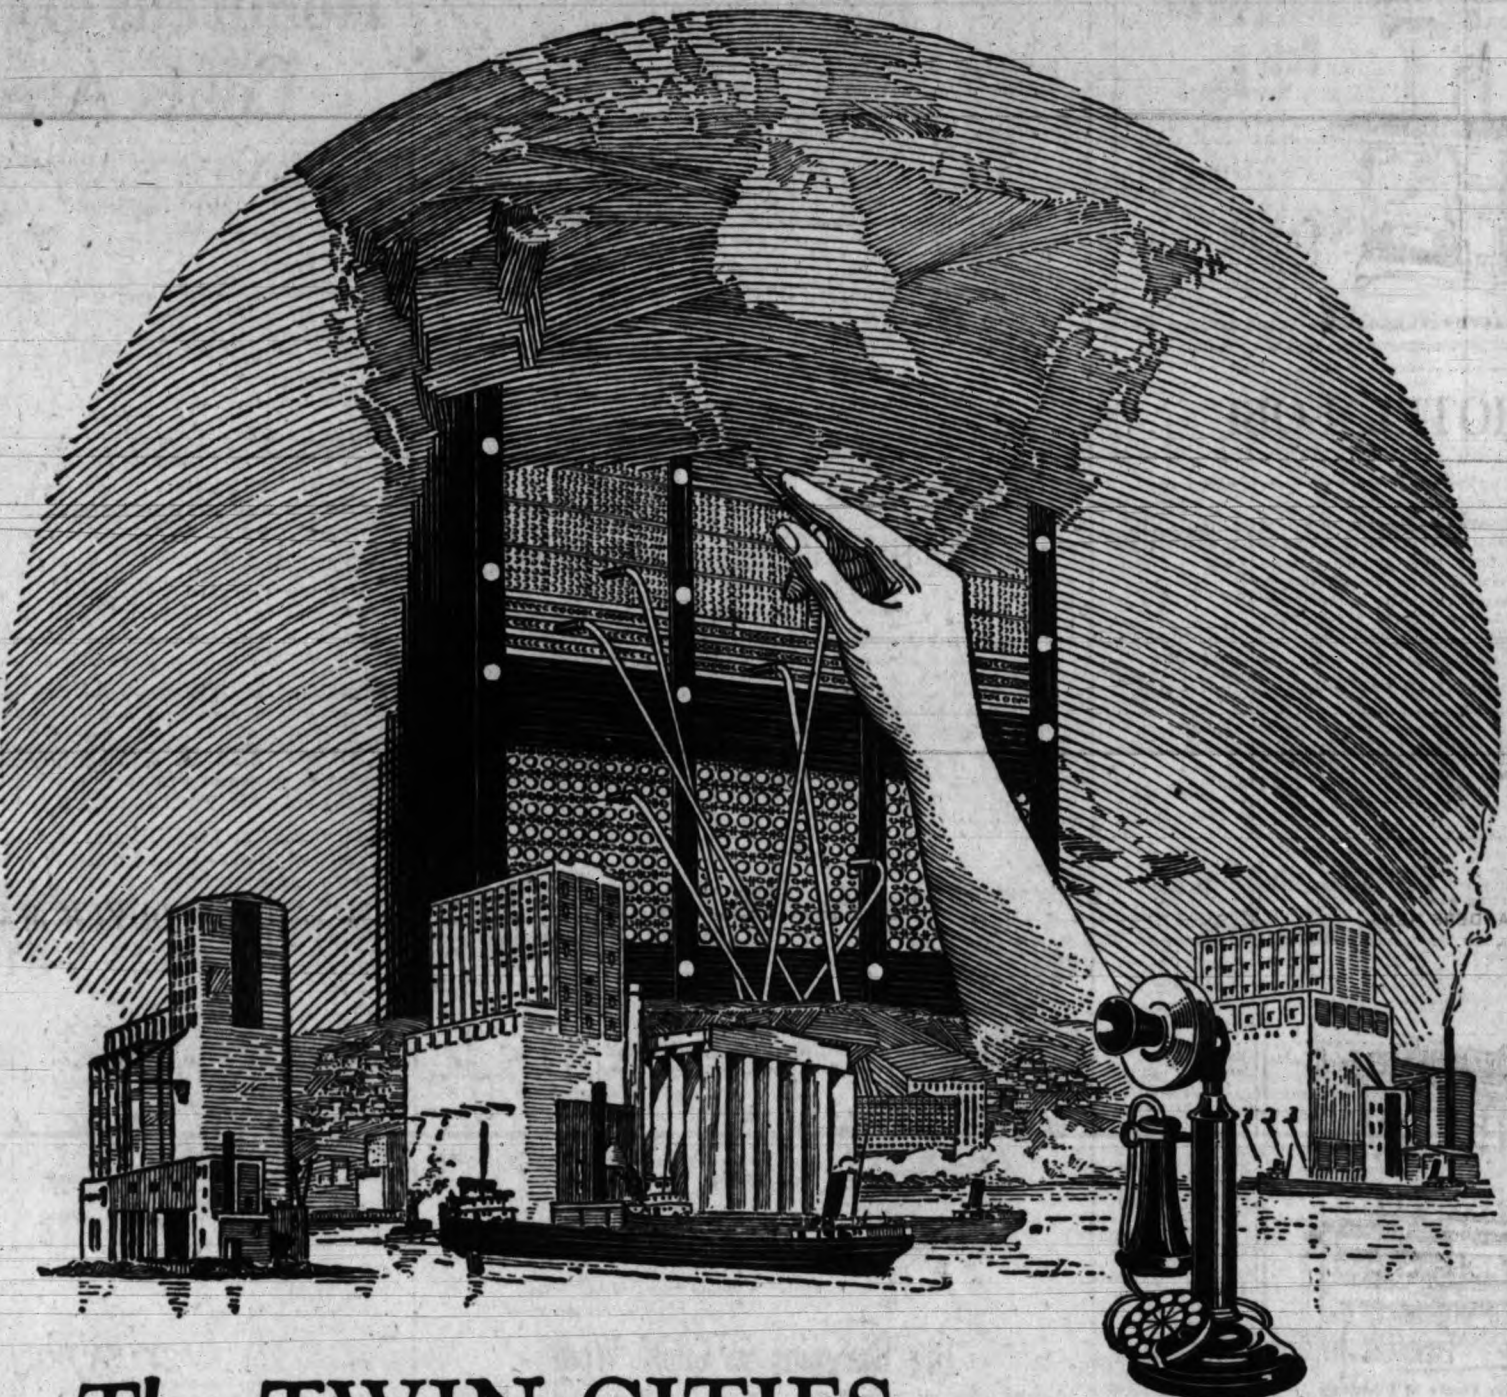

Then everybody was happy, and you see it is a good thing the bunny gentleman gave the Lady Mouse a green bag. And if the little dog in the picture doesn't jump through the glass to chase the cat on the back fence, I'll tell you next about Uncle Wiggily and the May Bug.

## The TWIN CITIES

"connect" with the world

YEAR by year more towns and cities are being linked together in the friendly net of communication spread over Canada by the telephone.

The first of May, Fort William and Port Arthur were put on speaking terms with Winnipeg. Long Distance Telephone connection was established between the Twin Cities at the head of the Lakes and Winnipeg—and thus with the great systems that include the leading cities on the Continent. Heretofore the Twin Cities had a range of long distance communication limited to towns and villages within a few miles radius. This important event serves to mark the pro-

gress in Canada of the great invention, the telephone. From the very start Canadians were quick to see the advantage in business and social affairs of rapid communication, with the result that Canada makes more use of the telephone than all other nations, save one. Over one million telephones are in use in Canada; and over one million Northern Electric telephone instruments, and the equipment required to operate them, have been made in Canada by Canadian workmen. Thus the progress of the telephone contributes not only to the greater convenience and efficiency of Canada's people, but also to her industrial growth.

## Information

The simple telephone on your desk is made of 201 parts—all accurately made and inspected—many of them tested to the thickness of a hair.

## Northern Electric COMPANY LIMITED

Equipment for transmitting Sound and Power

This is No. 16 of a series of advertisements issued in the interest of Canada's electrical development.

## Soccer Players To Battle For Places On Rep Team To-night

Fans Assured of Splendid Match When Picked Eleven Meet at Royal Park

Kick-off Will be at 5.30 o'clock; Best Men Will be Sent to Nanaimo

Although the weather makes one feel like stretching out in the shade of the old apple tree there will be a fairly good soccer treat in store for any fans who forget the warmth and journey to the Royal Athletic Park just before the shades of night to-night.

The soccer tilt will be between the "Reds" and "Blues" and will, so the officials say, bring together the best eleven in Victoria. These teams have been picked from all the clubs in the city and are playing in the first of an elimination series to determine which players will oppose the English soccer team which will visit here on June 22.

The players are all keen to catch places on the team which will be "capped" to play against the Englishmen and as a result spirited competition can be looked for this evening.

**RETURN GAME HERE**  
After the game to-night an eleven will be selected to proceed to Nanaimo next week to play an exhibition game and later the miners will come here for a return game. These games will enable the team to get in fairly good shape for the tussle with the visiting Englishmen.

Only one change is to be made in the team, originally announced to play to-night. Bob Preston, captain of the Veterans, will not be able to turn out with the "Blues" due to the bad shaking up he received in Vancouver on Saturday. A copy of his ribs are not just right and, in view of the fact that the Vets may have to play the B.C. finals with Nanaimo, Preston does not wish to take a chance on further injury.

Both sides are particularly strong in all divisions and there should be no lack of action to-night.

The kick-off will be at 5.30 o'clock and Ralph Alcock will be the referee.

**THE TEAMS**  
The teams will be as follows: "Reds"—Beidgen, Veterans, Watt, Esquimalt; Whyte, United Services; Thornett, Veterans; Bowman, Veterans; Stewart, Esquimalt; Mulcahy, Victoria West; R. Watt, Esquimalt; Warren, Esquimalt; Clarkson, Veterans; Tuckwell, S.O.E.; Robertson, United Services, and J. Watt, Esquimalt.

"Blues"—Shrimpton, Hudson's Bay; Campbell, Veterans; Mosher, Esquimalt; Shanks, S.O.E.; Peden, Victoria West; Hay, Esquimalt; Cummings, United Services; Cameron, Veterans; Coulter, United Services; Smith, Veterans; Thomas, S.O.E.; Harwood, S.O.E.; Hosmer, Esquimalt, and Phillips, Veterans.

## On Second Thought

Don't laugh at a white mouse in a revolving wheel. You probably look strange yourself in a revolving door.

The old Romans probably had some legitimate excuse for designing the torture chamber, but what did we do to deserve the telephone booth.

Calais kicked himself in the knee and will be unable to run in the Kentucky Derby. . . . Those who bet on him in the winter books are kicking themselves higher up than that.

A collegian becomes a freshman the first year he enters college and stays that way until he leaves.

Hornby has won the National League batting championship six times and is leading again. . . . Yes, it's these uncertainties that make baseball the great game it is.

Anything is possible in golf. You realize that when you read Scotland is building the largest free course in the world.

The Junior Rockefeller has decided not to give Egypt a \$10,000,000 museum. . . . This will enable the senior Rockefeller to keep giving away new times with his accustomed liberality.

In the old days it used to be easy to get a fellow's number, but that was before the telephone girls started helping you out.

A little sentimental music professor while we weave one for mother and the girls. "Many a career has grown dim under the bright lights of Broadway."

"It's the little things that count," mused the stage midget as he labored with a sun in addition.

They say radio is not popular in Italy. . . . Perhaps because it furnishes too much opposition for Benito Mussolini.

Foch did pretty well when they gave him command of the allied armies. Why not let him see what he can do with the machine-gun situation in Chicago?

If the peace-time strength of the American army is not adequate there are always the Chicago gunmen to call on.

"The Prisoner's Song" has finally reached Sing-Sing and for the first time we are ready to demand more humane treatment for the inmates.

## SPORTS PROGRAMME IN ENGLAND TO GO AHEAD IMMEDIATELY

London, May 12—Within an hour of the official announcement that the general strike had been called off, British sport authorities took action to resume the programme of sports scheduled for this season, including the Walker Cup matches between British and United States golf teams, the ladies' open golf championship, and the Wimbledon jubilee tennis tournaments.

As far as Britishers are concerned, however, most important are cricket matches against the Australians.

## Ball Chiefs Decide To Stage Opener On Saturday Afternoon

Travelers and Sons of Canada Will Come Together at Late Hour at Royal Park

All Managers Are Looking For Star Pitcher; Clubs Are in Pretty Fair Shape

Amateur baseball chiefs are determined to pull up the curtain on Saturday afternoon, although they will be forced to take a late hour.

Rather than let the opening game stand over until Monday the amateur league officials decided to bring the Commercial Travelers and Sons of Canada together at the Royal Athletic Park on Saturday afternoon at 5.30 o'clock. This will permit the game ending before the moonshine appears.

The Saint Andrews, of Vancouver, will play a soccer game with Esquimalt on Saturday and as the park had been booked for this game several weeks ago, it was impossible to switch the attraction. The footballers, however, have agreed to put their game ahead an hour and the kick-off will be at 2.30 o'clock, which will allow the groundkeeper plenty of time to get the diamond in shape for the opening baseball game.

## MANAGERS ACTIVE

Now that a decision has been reached regarding the opening game, team managers are as active as a bunch of book-agers getting their clubs ready. Most of the bosses would give their right eye to get a real pitcher. None of the clubs are particularly well fortified in the mound, especially for a championship series with the mainland, but it is possible that a young Alexander or Johnson may be dug up on the sandlots somewhere, somehow.

The three teams are pretty well balanced in hitting and fielding strength and there should be some interesting games during the season. Saturday will show whether the "Travelers" who are the year's C.P.R. championship aggregation are going to have things their own way in the league or are to have hot opposition.

## American Golf Team Use Motors To Reach London From the Sea

Walker Cup Players Expect to Retain Trophy in Match With Englishmen

London, May 12—The American Walker cup golf team, headed by Bob Gardner of Chicago, disembarked from the Aquitania yesterday afternoon to find England deeply concerned over the general industrial dispute which may interfere with the international match against Great Britain.

Giving up hope of reaching London by train, the Americans boarded automobiles, pushing over roads which recalled war-time conditions in the traffic of food trucks, lorries loaded with tin-hatted soldiers and motorcycle dispatch riders.

## EXPECT TO RETAIN CUP

The members of the team said they had experienced an enjoyable voyage and were confident of retaining the cup. They immediately expressed their willingness to co-operate with British golf officials in any changes which might be necessary in the golf programme on account of the strike. With the settlement of the strike, however, the match will go on as scheduled.

## IRISH TEAM TO VISIT U.S.

Queenstown, Ireland, May 12—The Tipperary hurlers, the champion Irish team, embarked on the steamer Bremen to-day for the United States. They will take part in the contests opening in New York May 30. A League war is ready to demand more humane treatment for the inmates.

## Pittsburg Moves Up In League With Loud Barrage of Bingles

Cincinnati Jumps Into Second Place in National League; Giants Lose to Cards

White Sox Relinquish Third Place in American League; Athletics Too Strong

New York, May 12—Eastern teams in the major leagues are holding their own against western clubs in the first inter-sectional battles of the campaign with Washington and Philadelphia registering their winning form of 1925 in the American, to offset an unexpected relapse of the Giants in the National.

The White Sox, victims of Philadelphia's winning streak, six to two, relinquished third place to the Senators yesterday.

Brooklyn defeated the Cubs again yesterday 6-2. The Pittsburgh Pirates reached the first division with a loud explosion of base hits, climbing aboard the offerings of three Phillies pitchers for fifteen hits to win 11-6. The result gave Pittsburgh a fourth place tie with the Giants who lost another game to the Cardinals, 6-5, and was Rhen's fifth victory in six starts.

## NATIONAL LEAGUE

At St. Louis—R. H. E. New York . . . . . 5 7 0 St. Louis . . . . . 6 11 2

At Pittsburgh—R. H. E. Philadelphia . . . . . 1 9 3 Pittsburgh . . . . . 15 15 9

At Cincinnati—R. H. E. New York-Cleveland, cold. Boston-Detroit, cold.

At Philadelphia—R. H. E. Chicago . . . . . 3 8 2 Philadelphia . . . . . 6 8 2

## LOCAL BASKETBALL CHAMPIONS

This year the senior honors passed into the hands of the C.P.R. team, which, after winning the local honors, lost out to Duncan in the finals for the Island title. Duncan in turn lost to the Adams, of New Westminster, who were defeated by the Tollers, of Winnipeg, the present Dominion champions.

The C.P.R. team had a splendid season and lost but one game in the city, the James Bay Methodists slipping over a win. The railroaders, however, won several times over the Bays and redeemed their only defeat. In the playoff for the local championship the C.P.R. defeated the Canadian Puget Sound team and then disposed of the First United Church, winners of the Sunday School League. Next year the C.P.R. boys will go out after the Dominion title.

The players in the above picture are as follows: From left to right, Vernot Jones, captain; centre, Stan Moore, guard; Ted Dunn, guard; Tommy Wachter, forward; Bill Passmore, guard; Jack Brindley, manager, forward.

## No Rules For Sprinting; Must Teach Yourself

Charley Paddock Refers to Different Styles of Famous Sprinters; Abrahams, Who Won 100 Metres at Last Olympiad, Had Style Which Surprised Americans, Yet He Won

There are certain set rules in running, as I shall try to briefly explain in later articles.

It is best to follow these closely. But their application to your own needs is best known to yourself. One can tell you the rules of starting, but you will have to learn to get away fast. It is your own individual problem.

One time I remember a group of French University students and professors, asking if they might measure a certain athlete, claiming that when they had found another man with the same size chest and arms and legs and of the same height, why then they would have discovered a man who could run just as fast.

Theoretically that may have been correct from a French viewpoint. But it was not practical nor true.

For every individual is different and must be to a certain extent a law unto himself. If you have followed sprinting, remember for a moment the differences in form and style between Abrahams of England, Liddell of Scotland, Scholz and Murchison of America, Kirksey and myself.

We all run differently and, if these styles bring results, why, so far as we are concerned, they are correct. Copy the best points from each that seem best suited to your own physical makeup and then you will be a sprinter, whether your form resembles any one of these or not.

Harold Abrahams was a wild-looking apparition in action at the Olympic games in 1924. He leaned farther forward than any man had ever done.

Indeed, he was running at such an angle that if he did not bring up his leg very quickly on each step he would have fallen on his face. And he had a head jerk and a shoulder twist that were unsightly.

When we saw him in practice we felt certain that he could not run. But that style, however awkward it may have looked to us, was good for him. And he succeeded with it, where he had failed before, running with a typical American sprint style.

Be natural and do not let style trouble you. Results and not form are the essentials for sprinting success.

## HELPFUL HINTS by GOLFING STARS

(BY SPECIAL ARRANGEMENT WITH GOLFERS MAGAZINE) JOCK HUTCHISON—MENTAL SIDE OF GOLF

GOLF is at least one-third mental in tournament play. There are few players, indeed, who can play their best game when facing a strong opponent. There are few, also, who can put together four good medal rounds in competition when the final round means something. There are many fine golfers who go out to the links and play every shot with machine-like precision when engaged in a practice round, but fall down miserably in match or medal play.

Just before going out to play Vardon and Ray in 1913, little Johnnie McDermott, the former open champion and one of our foremost stars at that time, told Francis Quimet not to watch them play a single shot.

This was, of course, medal play and not match, but it was excellent advice.

## Suzanne Announces Intentions to Play in Wimbledon Games

Paris, May 12—Suzanne Lenglen arrived from Nice yesterday and started training to-day at the Racing Club courts with the Professional Champion Burke. Mme. Lenglen confirmed reports that she would play in the international championships in France and at Wimbledon, but declared that she would not compete in the Franco-American and Franco-English women's matches.

## HORSE RACING

Juarez, Mexico, May 12—Results of racing here yesterday follows: First race, 4 furlongs—Gillflower, 109 (Williams), \$12.50, \$12.60, 04. Fairy Rose, 101 (Smallwood), \$6, \$8. Spide Bush, 111 (Taylor), \$2.20, Time 1.01.3-5.

Second race, 5 furlongs—Dudley Bug, 108 (Cochrane), \$10, \$6.20, \$4.20. Pearl Madeline, 113 (Corbett), \$8, \$4. Spide Bush, 111 (Taylor), \$4.20, Time 1.01.3-5.

Third race, 6 furlongs—Singapore, 108 (Williams), \$5, \$3.50, \$2.80. Gansar, 104 (Hillier), \$4, \$2.20. Dan Alarm, 108 (Greenwood), \$2.60, Time 1.15.

Fourth race, 5 furlongs—Mary Dear, 106 (Greenwood), \$12, \$12, \$2.60. Spide Bush, 111 (Taylor), \$2.60, Time 1.01.3-5.

Fifth race, 4 furlongs—Makewell, 114 (Doyle), \$5, \$3.50, \$2.20. Beanie, 111 (Smallwood), \$2.60, \$2.20. Joker, 116 (Greenwood), \$2.40, Time 48.3-5.

Sixth race, 5 furlongs—Brown Dick, 100 (Collins), \$13.40, \$4, \$4.80. Linda Zinda, 107 (Carroll), \$5.40, \$4.20. Lena R., 97 (Doughue), \$4.80, Time 1.01.

Seventh race, 1 1/4 miles—Contender, 97 (Laidler), \$15.20, \$7, \$5.20. Zanzibar, 108 (Smallwood), \$3.80, \$4.40. Silix II, 111 (Neal), \$5.40, Time 2.06.8-4.

Eighth race, 5 furlongs—Run-ride, 108 (Taylor), \$5.40, \$3.60, \$2.60. Neg, 108 (Smallwood), \$12.60, \$5.80. Ask Jessie, 104 (M. Hurn), \$3, Time 1.01.2-5.

New York, May 12—A new speed marvel was uncovered at Jamaica yesterday when Harry Payne Whitney's Panders, winner of the Rosedale Stakes for two-year-old fillies.

Panders showed her heels to eight other juveniles, including Accomplish, best two-year-old of the season in 1:00 1/5. The Whitney filly finished four lengths ahead of Accomplish under wraps. Granny was third.

Louisville, May 12—Kentucky Derby colts today in which to show their trainers and owners that they are ready for the \$50,000 added race at Churchill Downs Saturday. Between now and the time the entries close Friday, a number of the eligibles will be given stiff workouts against time in an effort to determine whether they are in condition to win.

A few of the doubtful starters will be given races to-day and upon their showing depends whether they will get under colors Saturday.

All the derby horses will be on the grounds by Thursday. Pompey arrived yesterday in fine condition. Of the forty or more nominees here, Kentucky has the most, and these now look to be of derby calibre, and the field probably will be further reduced daily until the entries go through the box Friday. And after that scratches are expected to narrow the field still more. Some may be declared as early as 7 o'clock Saturday morning, and there is a possibility that two or three will be scratched before post time, about 4:40 o'clock.

From a prohibition standpoint, W. O. Maize, federal administrator, forecasts a dry derby day, with the flask toters under special ban.

Poland Eliminated By Great Britain in Davis Cup Series

Harrogate, Eng., May 12—Great Britain yesterday eliminated Poland from Davis Cup competition, O. G. Turnbull, England, defeated E. Kleyndel, 6-1, 7-5, 6-0, and also won from C. Czestewski, 6-0, 6-2, 7-5.

J. D. Wheatley defeated Czestewski, 6-4, 6-2, 6-4, and also won from Kleyndel, 6-2, 6-4, 6-1.

In the doubles G. R. Crole-Rees and C. H. Kinsley won from Kleyndel and S. K. Steiner, 7-5, 6-4, 6-3.

Malmö, Sweden, May 12—In the second round yesterday of the Davis Cup play, European division, Sune Malstrom, Sweden, defeated Wuarin, Switzerland, 6-4, 6-1, 6-2, and Marcus Wallenberg, Sweden, defeated Aeschliman, Switzerland, 6-4, 6-4, 6-2, 6-1.

Twenty-seven Cubans On U.S. Ball Teams

Havana, May 12—Cuba has assumed a place of increased importance this year in the American national pastime, with twenty-seven of its athletes on the rosters of major and minor league baseball clubs.

Three of the players are listed with major league teams: Adolfo Lague, veteran pitching star of the Cincinnati Reds; Mike Gonzales, catcher of the Chicago Nationals; and Ramon Herrera, Boston Red Sox infielder.

The name of Gonzales heads the Cuban contingent, appearing on the rosters of four teams. In addition to Mike are Ramon and Eusebio, infielders, playing with Waco and San Antonio respectively. In the Texas League, and Oscar, also an infielder, with Greenville in the South Atlantic League. Ramon and Eusebio are brothers.

## Brooklyn Manager Is Fortunate With Discarded Players

Robinson Has Unusual Success With Pitchers Cast Off By Other Managers

Hornsby Another Who Shows Promise in This Direction; Thinks Twirlers Good

By BILLY EVANS  
Certain major league managers appear to have unusual success with discarded players.

Wilbert Robinson of the Brooklyn Nationals has always been such a leader. He has been particularly fortunate with pitchers labeled through by other managers.

Credit for this unusual success with discarded twirlers has been attributed to the fact that Robinson as a player was a great catcher, a fine coach of pitchers.

It is beginning to look as if Rogers Hornsby of the St. Louis Cardinals is to show the twirlers that has been playing on genial Wilbert Robinson for these many years.

**CORRECT DOPE**  
When I talked with Hornsby at the Spring training camp of the Cardinals, his pitching was the only thing that gave him much concern.

"I wish the twirlers that I do, but I figure Keen, Hunter and Johnson are going to be a great help to my club."

They have shown plenty of stuff and under the direction of Bill Killefer should be much improved pitchers this year. I am positive the former Cub manager will just about make my pitching staff.

**EXPECTS THEM TO WIN**  
"I know what Keen and Hunter can do and everybody tells me that Johnson who once cost Detroit a lot of money, should win for me."

"Huntzinger has had the benefit of several years under McGraw and that means much. However, I intend to start Huntzinger and give him a four or five-day rest between games. With New York I was a relief pitcher almost entirely and he is hardly strong enough for that role."

"I also intend to use Johnson and Keen as regulars and am pretty sure they will deliver."

That Hornsby had the right dope a month before the opening of the season has been proven by the excellent work of these three pitchers. Every game they have worked has been of the highest order and in most cases a victory has resulted.

**COLORFUL CLUB**  
When Hornsby discussed the chances of his club to win the National League pennant, he dwelled on the spirit of the club as one of the most important factors.

"The team has fight and confidence," is the way Hornsby summed up his club.

As a matter of fact, Hornsby has by his own play inspired the club with the fighting spirit that is going to make the Cardinals troublesome. Hornsby does everything he asks his players.

No man on the team runs out a hit harder than Hornsby. No matter how far behind he continues to hustle.

Regardless of where the St. Louis Cardinals finish this year, it is going to be an interesting time to watch. It is the greatest the great Hornsby and his fighting cast.

Incidentally, it looks as if he is going to get pretty good pitching, the one feature of which he was doubtful.

## AT THE THEATRES

FRANK PUGLIA HAS  
PROMINENT ROLE IN  
"THE BEAUTIFUL CITY"

Frank Puglia, who plays a prominent role in "The Beautiful City," Richard Barthelmess' newest starring vehicle, now playing at the Playhouse Theatre, is a D. W. Griffith discovery. The young actor was first found by Mr. Griffith playing in a small Italian company on the East Side of New York. Mr. Griffith entrusted him with the important role of the cripple son of Mother Prochard, the brutal

Paris divekeeper in "Orphans of the Storm." Puglia scored in his role. Since his hit in "Orphans of the Storm," Puglia has played many prominent screen roles. He is ideally cast as the young Italian, brother of Tony Giliardi, played by Mr. Barthelmess, in "The Beautiful City."

"The Beautiful City," by the way, has a typically strong Barthelmess cast. Dorothy Gish reappears as the young star's leading woman in this exciting melodrama, playing an Irish girl of the tenements. William Powell, who scored in Mr. Barthelmess' "The Bright Shawl," has the striking role of an Italian gangster. Florence Auer, the well known character actress, plays Tony's mother.

FROZEN-FACED STAR  
WINS MANY LAUGHS  
IN COLUMBIA FILM

Buster Keaton has taken to those screen-blazoned great open spaces where men are men and women are women.

In his latest laugh-provoker, "Go West," at the Columbia Theatre today, the frozen-faced comedian runs the gamut of hilarious situations and gets himself into more predicaments than a porcupine has quills. "Go West" is typically Keatonesque, but in the development of a definite plot a vein of pathos crops out that makes the audience feel sorry for the principal character one minute and roar with laughter at him the next. Advance notices that the picture would be one of the most elaborate comedies ever screened were verified by capacity audiences yesterday.

"HERE COMES BRIDE"  
AT COLISEUM LIVES  
UP TO ALL PROMISES

At the Coliseum "Here Comes the Bride" is proving to be all that was promised for this very lively comedy. It is a captivating story and goes with a bang, and good work is done by everyone in the cast. The play calls for a good deal of character acting on the part of the players who are putting the show over with a smoothness that lends much to the pleasure of the audience. The work of the author has already received the seal of approval of New York audiences, the story being cleverly arranged in a series of climaxes leading to a rather unusual curtain. "Here Comes the Bride" is the sort of play that enjoys immediate popularity wherever presented.

MUSICAL SCORE TO  
CAPITOL FEATURE IS  
GIVEN BY ORCHESTRA

The showing at the Capitol this week of the picture version of Victor Herbert's famous opera, "Mile. Modiste," starring Corinne Griffith, brings to mind that some of the favorite songs written by the late composer are included in that piece. "Kiss Me Again," undeniably his favorite, is in "Mile. Modiste." Other old favorites "I Want What I Want When I Want It" and "Teach Me to Smile." The opera as a whole

VERSATILITY SECRET  
OF PICTURE SUCCESS  
SAYS LAURA LAPLANTE

Versatility is one of the prime requirements of the movie actor or actress. Without it, beauty, brains or talent would be lost. Of what benefit would it be, for instance, to a player to possess the ability to play parts well?  
Laura LaPlante possesses versatility to a marked degree. This popular Universal star can play any kind of a role, from that of a little street girl to a grand dame. And lately she had demonstrated her ability to a marked degree.

Fresh from her triumphs as the leading player in the new Universal super-Jewel "The Midnight Sun" in which Miss LaPlante played the role of a dancing girl in the Imperial Palace, she was selected, with but one day of rest, to play an entirely different part.  
That part is that of "Honey," in "Skinner's Dress Suit," the Universal-Jewel which is now showing at the Dominion Theatre. Miss LaPlante's characterization as the charming little wife of Skinner, played so ably by Reginald Denny, is one of the most delightful portrayals yet given to the screen in this type of picture.

SCHUBERT RECITAL  
THOROUGHLY ENJOYED

Another Success Scored by  
Victoria Club Yesterday

In the fourth recital of its career, the Schubert Club of Victoria gave last evening at the High School auditorium its second concert of the present waning season. This chorus of female voices, comprised in number over twenty selected sopranos and contraltos, under the club's founder and conductor, is accomplishing much in this realm of the art. It is establishing for itself an excellent reputation and there is no doubt of its permanency among the choral organizations of the city. The programme presented consisted of six pieces, two of which, "Turchanoff," "Meet and Right It Is" (unaccompanied) and Schubert's "The Lord Is My Shepherd," being two test numbers included in the competition for female choirs at the forthcoming B.C. Musical Festival at Vancouver in the beginning of June next; the cantata for female voices, "The Lady of Shalott," Alfred Tennyson's poem, set to music by Walter Boodell. This work, divided into four parts, was assisted of choruses, with soprano solo, the latter being assigned to Mrs. A. W. Stokes, one of the leading soloists of the club, while Miss Gladys Farnell of the B.C. Dramatic school read the poem with delightful modulation and verse. The poem depicts the beautiful island of Shalott and the fields; the silent island of Shalott; the gay towers of Camelot; the Lady of Shalott, weaving her magic web of colors gay; the curse that came to her; her loyal, bold red-cross knight, Sir Lancelot, on white horse; and finally the Lady of Shalott in a boat floating to her self-sought death down the river, robed in snowy white and singing her last song, mournful, holy.  
The music itself, taking about twenty minutes in production, is written in a major, modulating into the minor key in the soprano solo, "There and Back," "The Lord Is My Shepherd," etc., and the dramatic alto agitato, "She Left the Web, She Left the Loom," etc., appropriately and admirably rendered by Mrs. Stokes. The work throughout was exceptionally pretty and well conceived, the singers throughout acquitting themselves in most meritorious fashion, perfect in ensemble and effect, and continually recognizing and attentive to the desires and wishes of the composition. Mr. King achieved a marked success, albeit a greater difference could perhaps have been accomplished in the opening number, nine, eight time and the choruses written with three four signatures. Prolonged applause greeted an excellent presentation, and among the goodly numbers present many prominent musical poets were noticed.  
Outstanding numbers in the club's last group were the "Lullaby" (Borch) and "Homing," in which the choir gave of their very best. These proved sterling examples of what the club's members can accomplish, and delighted their hearers to such an extent that repetitions were requested in both cases. The Schubert Club is surely ascending to the heights of

perfection, and surely entering the portals of their desires and aspirations.  
Mrs. Margaret Stewart, the club's accompanist, presided at the piano with admirable and discerning manner in all the club's selections, and in the cantata.

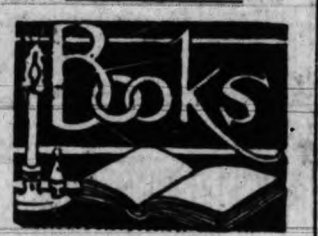

## WALTER BATES

A few evenings ago, Walter Bates, at an invitation recital, created a most favorable impression, and his appearance with the club last evening caused no little interest in local music circles. First and foremost, this popular tenor has a splendid vocal organ, and combines with consummate "song-art," and an impressive sincerity, hallmarks and singer of distinction, and therefore never lacked in appearance and appreciation in all he accomplished. His voice is more lyrical than robust and ranges widely and freely, his top notes ringing and clear as delicate to the ear. Well schooled, he sings surely, plainly and with excellent diction.

He was heard in two groups, his accompaniments being in the safe and beautiful hands of Mrs. Broley. The first group included "Ah, Moon of My Delight" (Lisa Lehmann), interpreted in admirable manner, the singer receiving such greetings that he was called back for a second time. The second number was de Korov's "Recessional," and in response to the appreciated wishes of his hearers gave the delightful old English song "Four Ringers," accompanying himself on the piano. Mr. Bates chose for his second group four modern songs, "May Morning" (Dennis), "Look Into Your Garden," "At Dawning," and W. H. Squire's fine song "If You're a Soldier." The last and fourth numbers being preferred, the last and the augmented number that followed, a new song, "Where You Call Me," giving opportunity in displaying the variety of his dynamic and dramatic forces.

The two accompanists, Miss Broley and Mrs. Stewart, and the recitalist, Mrs. Farnell, were the recipients of handsome floral tributes.

Mrs. A. W. Stokes, the soprano soloist, also received a beautiful bouquet.

## LITERARY NOTES

Dr. George H. Locke, the genial and dynamic Chief Librarian of Toronto, has been chosen by the nominating committee of the Canadian Library Association as president for 1927. This is the highest honor in the profession and only once before in fifty years has it been conferred on a Canadian. The association has over 7,000 members and includes university and college libraries, business and research libraries, medical and law libraries, provincial and government libraries, as well as public libraries. Dr. Locke has been in charge of the Toronto libraries since 1904, and has been instrumental in the circulation of books quintuple in that time. Before he went into library work he was on the Faculty of Arts of Harvard, Chicago and McGill Universities, and editor of one of the most important technical educational journals of the continent. He has been president of the Arts and Letters Club of the Canadian Association, the Ontario Library Association, a member of the Senate of the University of Toronto and of the Board of Regents of Victoria College.

The American Library Association has just been notified by the Carnegie Corporation that it has decided to give to this important organization \$1,000,000 to provide an annual income of \$50,000 to aid library schools in their great work; a third million for general endowment of the American Library Association in promoting the extension and development of library service; the income from a fourth million it is expected will be made to aid particularly those small libraries which show that by their efforts they are worthy of help.

To show its appreciation of this acknowledgment of its great educational work, the American Library Association has decided to raise \$2,000,000 so that the completion of the fifth year of its existence will see it with \$4,000,000 for its development. The A.L.A. is a professional and a service organization. Its membership includes libraries, librarians and library trustees from all over the United States. It gives advisory assistance in the establishment and conduct of libraries, issues publications about library work for librarians and others interested in libraries, aids in the development and extension of libraries, in the improvement of methods and ideas in library work, in conducting investigations, studies and surveys and in promoting adult education.

What is literature? I suppose every schoolboy would undertake to give a definition. But Colin D. Campbell, M.A., of Regina, has written and published in pamphlet form a learned essay, "The Nature of Literature," in which he examines definitions, considered by great thinkers of England and America, and finds them one and all inadequate. He brings out the truth that the human element is the characteristic mark, the differentiating feature of literature. In this connection he quotes with approval a saying of John Burroughs, "Literature is always truth of some sort, plus a man." Mr. Campbell also praises what Macaulay has to say in his essay on Dryden regarding the difficulty of defining poetry. "The man," says Macaulay, "who is best able to take a machine to pieces and who most clearly comprehends the manner of its working, will be the man most competent to form another machine of similar power. In all the branches of physical and moral science which admit of perfect analysis, he who can reassemble will be able to combine. But the analysis which criticism makes of poetry is necessarily imperfect. One element must forever elude its researches, and that is the element by which poetry is poetry."

In the twenty pages of his attractively printed brochure, this Regina educationist has gathered together a number of thought-provoking attempts to define the indefinable. He takes us out into the wilderness and he leaves us there, as Arthur Hugh Clough said of Carlyle, "The man, Campbell gives us something to think about and emphasizes the mystery that pertains to all great writing. He intends to follow up this essay with

others on the aims and functions of literature. We wish him well in his researches, but hope that in future he will give us less of Burroughs and other writers and more of C. D. Campbell.

W.T.A.

EX-OFFICER DENIES  
HE KNEW RUM MEN

J. Bissailon Tells Customs  
Committee No Liquor Stolen  
From Barge Tremblay

Ottawa, May 12.—Positive denial that he was in touch with the owners of the liquor seized on the barge Tremblay in the St. Lawrence River was made by J. E. A. Bissailon, former chief customs preventive officer at Montreal, before the Commons customs inquiry committee this morning.

Bissailon told the committee about arrival of the seized barge at Montreal, where it was unloaded.

## NO PILFERING

The former preventive officer said he was satisfied there had been no pilfering of liquor from the cargo while the barge was being unloaded. He had heard reports the barge was "floating in whisky," but there had been no pilfering of liquor. He explained he had not gone down personally, because he was "tired from working long hours."

"But you said you were in bed the whole night previously," stated R. L. Calder, committee counsel.

That was the night of the seizure. The witness reiterated his statement that he was tired out.

## BOOKS AND PAPERS

Detective Rioux, who arrested Bissailon, was questioned in regard to the books and papers which were in Bissailon's office.

Mr. Calder asked him if he had seen a black book which Bissailon had claimed was taken from him.

The witness said he had not taken such a book. He had made a list of the things seized at Bissailon's house, but the book had not been taken by him from Bissailon's office.

## TRIED TO ESCAPE

William Routledge, formerly an inspector for the Quebec Liquor Commission, gave information about two mysterious United States citizens arrested on the barge Tremblay when it was seized.

Former Inspector Routledge told of having been sent to the barge on the night of the seizure to relieve the liquor commission inspector who was in charge. During the time he was there the two Americans tried to get away from the vessel.

"I told them to get back," said the witness.

He was asked if either of the United States citizens, who were known as Campbell and Stewart, had said anything to him. He replied one of them had told him he thought Bissailon had double-crossed him.

Later, said Routledge, he was told "the Federals" were taking over the barge and so he left. On leaving he told Customs Officer Duval, who had taken charge of the vessel, to look after the two Americans. Duval had replied, "Oh, they are all right."

## CAR OF BEER

Routledge, questioned by Hqn. H. H. Stevens, told of having gone out to examine a car of lumber at the plant of the Dominion Mahogany Company. The car proved to be laden with beer and other liquors. Its seizure by the officers of the liquor commission was stopped by a mysterious telephone message which said it had come "through the regular channels."

Mr. Routledge told the committee the plant of the Dominion Mahogany Company was located at Lachine.

"When you are there you can smell nothing but beer," the witness remarked.

## BISSAILON ON STAND

Shortly before adjournment, J. E. A. Bissailon, former chief preventive officer at Montreal, gave his version of the seizure of the Tremblay. He said he was at Rock Island, Que., when word came through that a cargo of liquor was being brought into Montreal. He traveled up from Rock Island to Montreal with Officer Duval and later dispatched Duval to make the seizure. He had no idea the seizure was so large and as nearly all his Montreal staff were down at Rock Island, he sent only one man, Duval, was accompanied by a port officer called Mason and by his wife. He did not know until he reached Montreal the seizure he was to make was the Tremblay.

R. L. Calder drew Bissailon's attention to a signed report by Duval in which officer stated Bissailon had told him on the way down from Rock Island it was the Tremblay they were after.

Bissailon replied that Duval's report was probably correct, but there might be some error on the point in question. His recollection was the information about the barge Tremblay was given him in Montreal.

Sick Stomach Teaches Her a Lesson  
Brooklyn, Mrs. Alfred Pie writes:—"I had become accustomed to arising each day with a heavy head, dizzy and bad taste in my mouth. My bowels were frequently clogged. One day I became so sick I had to go home. A friend advised Carter's Little Liver Pills. I feel like a made over person since using them. Whenever my stomach goes bad again I'll certainly know what to do."

Carter's Little Liver Pills relieve the constipated condition by cleansing the intestines of their waste matter. Their action is gentle. Druggists, 25 and 30c red packages.

PRIMA DONNA WITH  
COMING REVUE HAS  
GRAND OPERA VOICE

Sonia DeCalve, the prima donna with George White's "Scandals," the sixth edition of which comes to the Royal Victoria Theatre on Friday and Saturday, May 14 and 15, with Saturday matinee, was born in the town of Martinsville, Indiana, twenty-one years ago. Miss DeCalve made her first professional appearance several years ago with "The Pink Lady." After an extended tour she proceeded to Chicago, where she was featured with the musical show playing at the Marigold Garden. It was while there that George White engaged her to appear in the "Scandals." She joined the organization last season and made such a profound hit with the playgoers during the show's long runs in New York and Chicago that White entered into a three years' contract with the singer. Miss DeCalve possesses a highly cultured voice, one that is rarely heard excepting at the Metropolitan Opera House in New York by some of its noted singers.

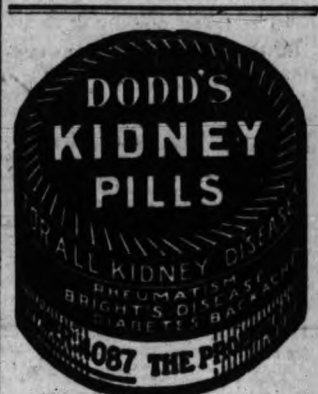

"SO THIS IS CANADA"  
COMING TO ROYAL  
FOR SIX-DAY RUN

After smashing records in Vancouver, the great comedy triumph "So This Is Canada" will reach Victoria on Monday, May 17, where it will be presented for six nights, starting Monday, with matinee on Wednesday and Saturday.

According to Vancouver newspaper

comment, backed by the verdict of fifty thousand people who saw the show in that city in its six weeks' continuous run, "So This Is Canada" is funnier than "Charley's Aunt," which, until now, was accorded to be the funniest play ever written. The comedy was written by W. S. Atkinson, of Vernon, B.C., a war veteran and author. It sprang into fame overnight. During the dull Lenten season, when theatres do poor business as a rule, "So This Is Canada" was presented in the ordinary way and the Empress Theatre was packed the first night. From then on it was "standing room only" at every performance.

The ancient Egyptians had zoological gardens containing large collections of wild animals.

The  
HARRISON HOT  
SPRINGS HOTEL

Company Limited

## OFFERS

8 Per Cent Cumulative Preferred  
Shares—Dividends Payable Semi-Annually.

A Bonus of Two Shares of Common With  
Each Share of Preferred

The Harrison Hot Springs Hotel Company's issue of 8% Cumulative Preference Shares offers to investors sound security, sure and large dividends and a handsome profit.

## THE BARE FACTS

The Company will conduct an all-year health and pleasure resort. The resort will open on May 15th. The assets of the Company have been appraised at \$850,000.00. This issue of 8% cumulative preference shares is limited to 2250 shares, par value \$100.00—Total, \$225,000.00. No further issue of bonds, mortgages or other charges against the property can be made without the consent of the Preferred Shareholders. The shares are cumulative and preferred. This means that the Preferred Shareholders must be paid dividends of 8% annually before the Common Shareholders, who are the business men who have invested the money in the development of this property can receive one cent in dividends on their investment. Preferred dividends will be paid semi-annually. Each preferred share will carry a bonus of two shares of Common Stock, par value \$10.00 each. The estimated earnings are four times the requirements for dividend purposes, and the Preferred Shareholders will share equally with the Common Shareholders in surplus profits. No promotion Stock has been or will be issued. It is unquestionably the soundest and most attractive investment that has been offered to British Columbians within our knowledge.

## M.P. DESCRIBES HIS COURSE AS LAWYER

W. A. Boys Denies He Acted as Politician in Ontario Smuggling Case

Ottawa, May 12.—"With me, the matter from beginning to end was a professional one and politics had nothing to do with it," declared W. A. Boys, chief Conservative whip in the Commons, at the customs inquiry this morning, in referring to his connection with the smuggling case of David Walsberg, formerly of Barrie, Ontario.

Mr. Boys appeared before the committee at his personal request. "Walsberg was not then a voter in my county," continued Mr. Boys. "I had no political influence with the Minister. I did as any solicitor would and should do—the best I could for my client in an absolutely legitimate manner. I have nothing to regret, not even an indiscretion. Should any member of the committee or counsel engaged think I am to blame in the slightest degree, I invite and press for the immediate formulation of a charge, either in the House or elsewhere."

**CHARGE OF SMUGGLING**  
Mr. Boys related the circumstances under which Walsberg had called at his law office in Barrie October 25, 1922. He had previously acted for Walsberg in and prior to 1919, when the latter was then residing in Barrie.

Walsberg had informed Mr. Boys he had been charged with smuggling and a trunk of silk he had at the station had been seized. He had then asked Mr. Boys to act for him as his lawyer.

"No information had been laid against Walsberg and no arrest had been made and under the Customs Act it was the duty of Walsberg, as his agent to deal direct with the Minister and no one else," said Mr. Boys.

**TWO MEN ENOUGH**  
Bissell repeated his statement, made yesterday, that he had considered two men were sufficient to seize the goods. He told the committee that he had received messages from Duval during the night of the seizure. "It wouldn't be true to say I was in touch with the owners of this liquor," asked Mr. Calder. "No," replied the witness with emphasis.

"Who was this man who drove down to the wharf, and when he was told the goods were seized, drove away again?"

"I was in bed,"

"I am not suggesting it was you, do you know who it was?" asked Mr. Calder.

"No," replied the witness.

**EVIDENCE QUOTED**  
Mr. Calder read extracts from evidence given by the witnesses regarding his arrest as shown by court records.

"That was not true that your account was made up by you in Farnham money collected by you in Farnham derived from customs collections," asked Mr. Calder.

"No," replied Mr. Bissell. He had been under a nervous strain at the time and had been under a misunderstanding. He had, however, as a matter of fact received considerable money through his business which had been deposited.

Adjournment was then taken until this afternoon.

## TO DEBATE FORM OF CITY CONTROL

Mayor Prondy, Alds. Marchant and Holmes, and Ex-Ald. Leeming to Speak

Victoria West Brotherhood Sponsors Stanley Hall Meeting To-night

Four fifteen-minute addresses on the city manager plan, suggested as an alternative form of municipal administration in Victoria, will be heard at Stanley Hall, Edward Street, this evening, under the auspices of the Victoria West Brotherhood. Members of the public interested in the subject are invited to attend. The debate will start at 8.15 p.m.

Mayor J. C. Prondy and Aldermen William Marchant, and Alderman David Leeming, and speaker will have a quarter of an hour in which to express his view. No decision will be rendered, as the debate is an informal one, suggested by the Victoria West Brotherhood, whose membership wished to hear discussion on the alternative forms of civic administration.

## SAND IN MARBLE

Middlebury, Vt., May 8.—A large pocket of sand was found recently in an otherwise solid block of marble. Geologists say the marble was formed under water and probably the sand was caught in the centre of the formation.

## YOU POOR KID, WHY ARE YOU SO SKINNY

Don't your Mother know that Cod Liver Extract will put pounds of good, healthy flesh on your bones in just a few weeks?

Tell her every drug has it in sugar-coated tablet form now so that in just a few weeks she can help you get back your appetite—make your body stronger—your feet nimble and your mind keener.

Tell her if they don't help greatly in 30 days she can get her money back.

Tell her that McCoy's Cod Liver Extract tablets are check-full of vitalizing vitamins and are the greatest flesh producers and health builders she can find.

## SALMON PRICES SET FOR THIS SEASON

Scale Governs Fish Caught in Waters Off Vancouver Island and Northern Coast

New Westminster, May 12.—Salmon prices to be paid this season by British Columbia canneries for fish caught in district two, embracing all waters off Vancouver Island and the Northern coast of the province, were decided upon at a conference here last night of representatives of the B.C. Fishermen's Protective Association and the B.C. Canners Association.

Prices for district one including Fraser River and the Lower Mainland coast, will be decided upon at a later meeting. They usually are governed by those prevailing in district two.

Prices decided upon last night follow:

Sockeye—35 and 52½ cents per fish.  
Chums—4 and 6 cents per fish.  
Pinkies—2½ and 3½ cents per fish.  
Red spring—5 and 7½ cents per pound or 60 and 85 cents per fish if caught in sockeye nets.  
Emu—20 and 30 cents per fish, until August 15.  
White spring—10 and 15 cents per fish.

During the 1925 season the canneries were paying 4 and 6 cents per pound for red spring; 3 and 4 cents each for chums; 16 and 25 cents each for coho.

In all cases prices are higher for fish caught by fishermen's gear than for those caught by canneries' gear.

## SEATTLE SHIPPING

Seattle, May 12.—Bringing 2,000 tons of copra meal and hemp and 500,000 feet of Philippine mahogany, the steamer West Hindoo is due here Sunday.

The steamer Cross Keys of the same service is due Saturday from North America. She has 5,000 bushels of peanuts and 1,100 tons of peanut oil for discharge here.

Bringing 2,000 bales of silk for discharge at Seattle, the O.R.K. liner Paris Maru is due here May 17.

The steamer Memphis City of the same service is to return here Friday from Tacoma to leave Saturday for the Far East. She will carry a large number of passengers and a heavy cargo of freight, including tons of wheat, 800 tons of spelter and 2,000,000 feet of lumber.

The steamer Memphis City is due here May 23 from the Far East with approximately 1,000 tons of freight. She will load a lumber cargo at Everett for Baltimore, sailing June 2.

Completing her voyage from Liverpool, London and Rotterdam, the Royal Mail steam packet Loch Monar is due here Friday with a small consignment of freight. She loads more than 15,000 do, in addition to lumber, copper and general cargo for her return trip.

## UNION OIL COMPANY TO CUTTER BEAR IS ERECT FINE NEW PLANT ON INDUSTRIAL RESERVE

Famous U.S. Coastguard Ship Leaves Next Tuesday on Farewell Trip to Alaska

Construction Work on Two 4,000-barrel Capacity Tanks Has Already Been Commenced; Company Will Move Into New Premises About July 15; Will Give Fine Service for Fueling Diesel-engined Vessels; Union Oil Company Is Constructing \$3,000,000 Refinery at Port Moody.

Due to the steady increase in their business in Victoria during the last two years the Union Oil Company of Canada Limited has decided to construct a fine new plant on the Industrial Reserve, at the entrance to the Inner Harbor, according to an announcement made this morning by H. B. Beasley, manager of the local branch of the company.

Construction work has already commenced, and the company will move into the new premises about July 15, Mr. Beasley stated today. The Union Oil plant is at present located on Viewfield Road, Esquimalt, having had their headquarters there since February, 1922, when they first commenced operating in this city.

It is planned to construct a new wharf at the plant measuring forty feet by eighty feet. The location for the new building is between the Shell Oil Company's plant and the site of the Canadian Western Cooperative Company.

Two 4,000 barrel capacity tanks will also be erected, one for gasoline and the other for fuel oil. Two tanks, each with 200 barrels capacity, will be built for containing Diesel fuel oil. With so many Diesel-engined vessels now being built for the fishing business, Mr. Beasley stated that his company was desirous of giving these boats a better service for fueling.

An office building, warehouse, pumphouse and garage will also be erected.

The Union Oil Company have at present twelve stations on this coast, four being located in Alaska and the remainder on the West Coast of Vancouver Island. The company is at present constructing a \$3,000,000 refinery at Port Moody. All the marine stations on this coast will be supplied from that base.

## THREE LARGE TOWING AND BARGE COMPANIES HAVE AMALGAMATED

New Westminster, May 12.—An amalgamation has been effected between the Coyle Towing Company, the Coughlan Tug and Barge Company, and the Pacific Tug and Barge Company, making one of the largest towing and barge companies on the Pacific Coast, controlling twenty tugs and ten barges.

Six of the hulks purchased from the United States Navy are moored near Port Mann, on the Fraser River and will be fitted out as log carriers, for use in bringing logs from up coast to the Fraser.

## PIONEER MASTER DIED YESTERDAY

Capt. C. Campbell, Long Associated With B.C. Coast Service, Passes Away

Capt. Charles Campbell, one of Victoria's pioneer shipping men, passed away yesterday afternoon at 2.50 o'clock at his home, 1459 Vilving Street. Capt. Campbell was long associated with the B.C. Coast Service and also saw service in the sealing business.

Capt. Campbell was born in Sweden on October 18, 1854, and lost his parents when only a young boy. He went to sea at the age of fifteen years, going to the United States and then coming to Canada.

At the age of seventeen years Capt. Campbell sailed out of Halifax in the company of the steamer "Comet".

Ten years later he married Miss Margaret Nichols of Sydney, Cape Breton, in November, 1880. May 23, schooner Umbria from Sydney, Cape Breton, to Victoria around Cape Horn, arriving here on March 8, 1891, on his first visit to this port. From that time until 1901 he was sealing.

Capt. Campbell joined the B.C. Coast Service on January 1, 1902, and had charge of many of their steamers up until January 1, 1921, when he retired at the age of sixty-six years. During his service with the B.C. Coast Service, he took charge of the Princess Alice when she came out to this coast and six months later he commanded the Princess Sophia when she came out to operate on the Alaska route.

Three of Capt. Campbell's sons saw service overseas, one, Roy St. Clair, being buried in Flanders. Capt. Campbell lost his wife in 1920. He leaves to mourn their loss six children, Charles with the Seattle Telephone Company, Helena, Margaret, married to C. H. Phillips of Seattle; William Thomas, employed by the Esquimalt and Nanaimo Railway; Frederick Alexander and Lloyd Percival, with the parent's daughter, the late Mrs. Campbell, and Robert Raymond.

Funeral services will be held on Saturday afternoon from the B.C. Funeral Chapel. The Rev. Dr. Clem Davies will officiate and the pallbearers will be George Miller, Thomas Politt, Charles J. Hickey, A. B. Appleby, Charles Goodwin and R. Dinadale.

## TALYTHIUS WILL TOUCH HERE OUTBOUND

Outbound for the Orient the Blue Funnel liner Talythius will sail from Vancouver to-morrow morning at 4 o'clock, calling at this port at 10 o'clock to pick up a number of Chinese passengers.

## LIQUOR CARGO IS FOUND ON VESSEL

Freighter Donetta Seized by U.S. Coastguard Cutter For Having no Papers

New York, May 12.—With a cargo of whisky, champagne, and alcohol valued at \$1,420,000, the freighter Donetta was brought into the harbor last night by the coastguard cutter Seneca and anchored near the Statue of Liberty.

The freighter, seized sixty miles southeast of Atlantic City, flying the American flag, but without ship's papers and with no one aboard with officer's credentials, was said by coastguard officials to come technically under the classification of piracy.

Coastguard officials believed the Donetta to be connected with the operations of an alleged bootlegging ring of Port Chester, Long Island. Emil Wormser and five other men were indicted Tuesday in connection with the ring, which is estimated to have had assets of \$10,000,000.

When the freighter was anchored in the harbor, seals were placed on its hatches and the crew of twenty-three men were left aboard for the night under guard. They will be arraigned before a United States commissioner to-day.

Commander John Blake of the Seneca said he pulled alongside the Donetta Monday night and got a "fantastic whiff of alcoholic content which would have staggered a theatre crowd." Coast guardsmen, boarding the freighter, found men on the bridge who would not admit that they were officers and who had no credentials. Part of the crew was intoxicated.

Commander Blake placed a prize crew on the freighter and took her in tow. The two boats battled a stormy sea, but the Donetta with eight feet of water in her second aft hold.

Another boat said to have been employed by the Wormser ring, the Admiral Schley, was seized by coast guardsmen off Green Port, L.I., yesterday, but no liquor was found aboard.

The cargo of the Donetta was said to include 500 drums of Belgian alcohol of the highest proof, each drum containing ninety gallons; 7,500 cases of champagne, and 7,500 cases of Scotch and liquors.

Coast guardsmen said the privilege of boarding an American craft at that distance from shore was "an attribute of sovereignty." They maintained the ship was first placed under suspicion for flying the American flag and having no ship's papers. Seizure for having liquor aboard was

## THE YELLOW STUB

His fat cheeks turned a rosy red. "My name is Barry Colvin. I wanted to talk to you about something important. First, and he lifted his eyes to meet hers. 'I hope you won't throw me out before I finish.' His mouth widened in a grin as he spoke.

"Sit down, Mr. Colvin," Mary indicated a chair, and smiled, for there was something about Barry Colvin's manner that was hard to resist, a contagion in his smile, a downright friendliness, even, that in any other person might be considered impudence.

"First of all, he began, placing his hat on the desk, 'let me repeat that I want to finish before you throw me out.' He grinned again. 'No, I'm not an insurance agent, and I'm not going to try to sell you a lot of an automobile. And I'm not a big slick stockman from the East.'

"Good heavens!" she cried in a mock horror. "Then you must be a book agent."

"Wrong again," he laughed. "I'm a salesman, but not the ordinary kind. I'm what you'd call a specialist."

"No," she said, "you're a lawyer. I saw you when you were in here yesterday."

"His eyes were suddenly serious as they sought hers. 'I'm also a friend of Jimmy Rand,' he remarked.

"Then, at the quick, inquiring look and the twinkling of her eyes, his words produced, he threw up his hands, simulating despair.

"There you are, I knew it. You're getting ready to throw me out now for butting in on somebody else's business."

"I didn't come from Jim. I'm not an ambassador. If he knew I was here he'd probably give me a good kicking—and he could do it, too."

"Barry clasped his hands around his knees, lifting his foot several inches from the floor and gazing at it as he went on. 'It's none of my business, Miss Lowell, but Jim Rand is the best friend I have in the world—and about the most stubborn individual in the world, too—'

"I wish," she interrupted, "you'd say what you have to say. I don't want to appear rude, but it's difficult for me to—"

"I know," he put in. "I'm sorry. I'll get right down to the point, Miss Lowell. I'm going to tell you why Jim Rand came to New York. You don't know, do you?"

"No."

"Well, Jim Rand came here because his father—a few weeks ago and a few led him to New York."

"Murdered!" she gasped. "Oh! I've heard of it. I won't go into it all, because it's a long story. We don't know who did it and we can't imagine why it was done. But poor Jim hasn't been himself, naturally, since the thing happened."

"Suspicion first pointed to a certain man in this city, but he proved an alibi. Then it pointed to a girl—a girl named Olga Maynard. Jim found her—he found her in a restaurant one night while you and he were together."

"She was staring at him in wide-eyed amazement. 'Then that was the—' she broke off. 'Go ahead, Mr. Colvin.'

"He met her the next night—in the same place. At first he tried to trap her into an admission. Then, when he told her the police were looking for her on a murder charge, she fainted dead away. Jim told me that you saw that, and that you quite naturally failed to understand it."

"Now he's convinced that the girl was absolutely innocent of any connection with the murder. In fact, she's been helping him in his search for the suspect."

"That's all, Miss Lowell. I won't bother you any longer." Barry picked up his hat. "I just had to tell you, because I thought you'd like to know. He wouldn't tell you himself. He said it was too late."

Her hand fluttered to her throat. She blinked to hold back the tears.

## ESQUIMALT HOME

PRICE REDUCED TO \$2,100

A REAL BARGAIN AND COMPLETE IN EVERY DETAIL

SITUATE in Esquimalt's best residential section. We are privileged to offer this cozy and attractive six-room bungalow, in the very best of condition and strictly modern in every respect. The garden, which is one of the best in the district, is contained in two large lots laid out in lawn, shrubs, flowers, vegetable garden and all kinds of large and small fruits; chickens, small lawn and stable, garage, etc. Taxes only \$12. To the particular homebuyer, we have no reservation in recommending the purchase of this property, both from the home viewpoint as well as an investment. F. R. BROWN & SONS LIMITED  
1111 Broad Street Phone 1076

## CHEAP LITTLE HOME

OUTSIDE CITY, low land, North Douglas

district. Four-room bungalow, electric light and water, large garden lot with garage. Price for all cash, \$150.

JOHN GREENWOOD  
1220 Government Street

## YOU CAN BUY A 6-ROOM HOUSE FOR \$700 AND PAY FOR IT AS RENT

WE have just taken over a good 6-room house on a mortgage and will sell to the first buyer at just enough to clear the mortgage. This property is located just outside the city limits in beautiful with taxes of only \$1.95 a year. The house requires some repairs, but a handy man could in his spare time make the place in good condition at very little expense. Money had shown for a workman with limited means to secure a home of his own on terms as low as \$100 cash and the balance at \$10 a month and interest. This is worth investigating at

ONLY \$700

SWINERTON & MUGRAVE LIMITED

## Keating

Special to The Times

Keating, May 12—A pleasant event took place on Monday when members of the South Saanich Women's Institute gave a surprise party to Mrs. Hafer at her home on Central Saanich Road, on the occasion of her birthday. The early part of the evening was pleasantly spent in a game of progressive five hundred, five tables being occupied. The prize winners were Mrs. Glendon, ladies' first and H. Laurie, gentlemen's first, while Mrs. Sherrington and W. D. Mitchell were awarded the consolation prizes. Singing and music was then enjoyed after which a dainty supper was served. A pleasing event then took place when Mrs. Mitchell, on behalf of the members of the Women's Institute, presented Mrs. Hafer with a dainty onyx and pearl brooch as a slight token of their appreciation of her untiring work and interest in the institute, and wishing her many more happy birthdays and H. E. Tanner also speaking a few words. The remainder of the evening was occupied with music, recitations and dancing, including the highland fling and Sir Roger de Coverly, after which all joined hands and sang "Auld Lang Syne" and "For She's a Jolly Good Fellow," concluding a jolly evening. Those present were Mrs. Hafer, Mr. and Mrs. H. E. Tanner, Mr. and Mrs. W. D. Mitchell, Mr. and Mrs. E. T. Lawrie, Mr. and Mrs. H. Lawrie, Mr. and Mrs. W. S. Butler, Mr. and Mrs. F. Young, Mr. and Mrs. J. J. Young, Mrs. Styan, Mrs. Sutherland, Mrs. Warner, Mrs. Randle, Mrs. Glendon, Misses Florence Hafer and Margaret Mitchell and Messrs. Lawrence Hafer and Albert Hafer.

Mrs. Moran and sons of Duncan were visitors at the home of Mr. and

Mrs. W. S. Butler, Keating Cross Road on Sunday.

Miss Minnie Cox of Portland, Ore., and Miss Leola Young of Victoria, have returned to Victoria after short visit at the home of Mr. and Mrs. Willard Mitchell, East Saanich Road.

Mr. and Mrs. Lawrence Hafer of Port Angeles are visiting at the home of their parents, here, for a few days.

A service of special interest will take place in the South Saanich United Church on Sunday when, in the absence of the pastor, Rev. Mr. Lees, the young people will take charge. Mothers' Day will be observed on this day and a beautiful religious program, "The Spirit of Motherhood," will be presented. Appropriate music will be rendered and the address will be given by the honorary president of the club, George Bayley.

LYNCHING IN FLORIDA

La Belle, Fla., May 12—Henry Patterson, a negro, was taken from his work with a road gang by a band of white men here late yesterday and shot and hanged. He was accused of attacking a white woman.

"Save-the-Franc" Campaign Started; Effort to Stabilize Republic's Credit

Montreal, May 12—A "Save-the-

Franc" fund in Canada, in aid of the French financial situation, has been started in Montreal, it was announced today.

A prominent committee, headed by Sir Lester B. Pearson, former Premier of Quebec and former Federal Minister of Justice, has been formed. The appeal is being made on the basis of gratitude to France for her heroic efforts and on the practical ground that stabilization of French credit will result to the business advantage of Canada.

School children will be appealed to for very small contributions, and it has been suggested employers take up modest subscription lists from employees willing to donate.

When complete, the money will be sent to Marshal Joffre, as head of the main fund in France.

The Washington zoo has recently received two rare lizards from the zoological gardens at Wellington, New Zealand.

## ROGERS BRUSHING LACQUER

Put it on with a brush right over the dingy old paint or varnish. Anyone can do it. Chairs, tables, toys, floors, window frames—all woodwork. The perfected brushing lacquer for home use.

"It dries while you wait"

## The Salvation Army

urgently needs your help in its big "Self Denial" effort

**BE KIND TO THE COLLECTORS**  
Kindly make cheques payable to Salvation Army and mail to Local Headquarters, 850 Cormorant Street

## BUTCHART'S GARDENS

BY  
**C. & C. Taxi Service, West Saanich Stage**  
Citizens and visitors can leave C. & C. Depot, 906 Government Street, at the following times, direct for the Gardens,  
9.00 and 10.00 a.m., 12.15, 2.00 and 4.00 p.m.  
Returning your choice of six different times are available by arranging with the outgoing driver. Thus the length of your visit in the Gardens is optional.  
50c each way

## Have Those Pictures Framed Now

They will look so much better framed. They will last so much longer. We do excellent work at reasonable charges.

## EXPERTS PLANNING INVESTIGATION OF HALIBUT DEPLETION

**Babcock Calls in Authorities From All Over Coast to Advise on Conservation Means**  
**Commission Will Conduct Extensive Inquiry Into the Habits of Coast Fish**

Work of the International Halibut Commission for the present year is being mapped out by John P. Babcock, chairman, and other members of that body at an important conference in Vancouver today. Mr. Babcock has called well-known authorities on fish life together from points all over the coast to help him and his associates in their investigations into the depletion of Pacific halibut.

W. C. Clemens of the Nanaimo Biological Station; Dr. MacLean Fraser of the University of British Columbia; Professor John A. Cobb, Director of the College of Fisheries of the University of Washington; M. B. Schofield, Scientific Director of the California Fish Commission; and W. P. Thompson, Director of the Halibut Commission, are meeting with Mr. Babcock.

**PLAN WIDE INQUIRY**  
"Our work this year will be of a very extensive nature," Mr. Babcock stated. "We are mapping out our whole programme for the coming summer when we shall continue our investigations into the depletion of our halibut. The commission has called leading authorities on fish in to give it the benefit of their knowledge and advice on this serious international problem, in the solution of which Canada and the United States are co-operating. Over a period of several years we are endeavoring to find out all there is to know about the habits of the Pacific coast halibut and means for preserving it from serious depletion. Already much valuable work has been done and this year's work will add much more to our store of knowledge, we believe."

## KIWANIANS OF EIGHT CLUBS HOLD BIG CELEBRATION

Two Hundred Members and Ladies Enjoy Banquet at Chamber of Commerce

Two hundred Kiwanians and ladies, members of eight Kiwanian clubs, last night, at a banquet at the Chamber of Commerce, brought to a brilliant conclusion a happy reunion. President R. C. Nicholas pointed out that the occasion was unique, as it was inspired by a spirit of friendliness among the clubs represented and not occasioned by convention business. Credit for the great success was bestowed upon James McIntosh and the members of the Interclub committee.

Kiwanians and ladies attending represented the following clubs: Everett, Mt. Vernon, Bellingham, Stanwood, Anacortes, Seattle and Nanaimo. The mainland visitors arrived at Sidney early in the afternoon by two large chartered yachts and in Victoria were welcomed and taken for a sightseeing tour by Victoria Kiwanians. Golfing enthusiasts were given the freedom of local links. The Nanaimo contingent made the journey in automobiles.

**STRONG PROGRAMME**  
At the banquet at the Chamber of Commerce the Mt. Vernon Kiwanians provided the entertainment, the programme including a splendid trumpet trio, cornet and vocal solos, and a most remarkable glee club. Under the direction of Fred Bertrand, twenty-five Mount Vernon singers rendering a wide range of numbers, including "O, Canada" in full, negro spirituals, oratorio and operatic numbers, including the "Soldiers' Chorus" from Faust, and concluding with Sousa's "Stars and Stripes Forever."

The Mount Vernon Kiwanian Glee Club Quartette also rendered a group of ballads, rounding out one of the most ambitious musical programmes ever presented in Victoria.

**CLOSE ASSOCIATIONS**  
Humorous speeches by President Warren Gilbert and Thos. Chambers of the Mount Vernon Club preceded an address by Ralph Loomis of Bellingham, the Lieut.-Governor of the Northwestern District of Kiwanis. Mr. Loomis dealt with the close association with Britain, notably recalling that Bellingham district had first been surveyed by Captain George Vancouver. He considered that Bellingham city is almost as English in its setting as is Victoria, while sentiments of hearty friendship are universal on both sides of the international boundary.

District Governor Kenneth Ferguson declared that such visits between Kiwanian clubs are excellent occasions for cementing friendly feelings, and extended hearty felicitations to the visiting clubs.

Kiwanian Robert Welch of Mount Vernon saw in the Peace Arch at Blaine and the Harding Memorial at Vancouver, tangible evidences of the international spirit of amity to be found among the peoples of the Pacific Northwest.

When banding back to President Nicholas the gavel of authority, President Gilbert extended to the Victoria Kiwanians an urgent invitation to visit Mount Vernon.

The evening's celebration closed with dancing.

**FOR GOOD BEVERAGES**  
After use, coffee and tea pots should be rinsed in cold water and then should be scalded with boiling water, wiped dry, and aired thoroughly.

**BEV FOR SOUR STOMACH**

## SEEING IT THROUGH

By Rollin Kirby, of The New York World.

## PREMIER INQUIRES INTO PROBLEMS OF CITY BOUNDARIES

Difficulties in defining the boundaries of Surrey Municipality, as laid before Premier Oliver yesterday, have raised a serious question in regard to the definition of municipal boundaries all over the Province. The Premier has the whole matter under consideration and may recommend legislation to cover it at the next session of the House.

In the course of the discussion of the Surrey boundaries it was brought out that in some places parts of houses were within municipalities, while other parts were outside. This condition arises in the case of a house built over a lake or river which bounds a municipality. A number of cases of this sort have been discovered and the Premier is anxious to place their status beyond question. At present the municipalities have no control over them.

A. D. Paterson, M.P.P. for Delta, and civic officials of Surrey conferred at length with the Premier yesterday on the Surrey boundary and its clearer definition.

## VETERANS TO VISIT BATTLEFIELDS AGAIN

R.M.S. Antonia Sails From Montreal on June 19 With Party of Ex-Soldiers

Great interest is being taken by Victoria Great War veterans in the veterans' tour of the battlefields, Paris, Brussels and Zeebrugge arranged by the War Veterans' Association of Canada.

The large party will sail from Montreal on June 19 aboard the 14,000-ton Cunard liner Antonia. They will arrive in Cherbourg on Monday, June 28, and will then leave by special boat train for Paris.

The party will return to London on July 7 where the tour terminates and the tourists can remain there or they may return back to Canada. The round trip from Montreal to London is completed in twenty-eight days. The party will land at Cherbourg, France, where direction of the tour will be taken over by Thos. Cook and Son. Two or three days will be spent in Paris with opportunities to visit all points of interest including the famous Palace at Versailles. From Paris the Somme area will be visited and the next three days will be spent in a carefully arranged tour of those portions of the battlefields on which Canadian troops were engaged, passing northward from Amiens, through Albert, Arras, Cambrai, Vimy Ridge, Lens, Ypres, Lille and many other centres, to Brussels. Ample time will be afforded en route enabling those who desire to do so, to explore points of personal interest. After a day in the Belgian capital, Zeebrugge, the scene of the great British Naval Raid, will be visited and from this point the party will embark for London.

Year 5-Weekly Report No. 27, Ending May 8, 1925

## OAK BAY FLATLY TURNS DOWN CITY WATER RATE OFFER

(Continued from page 1)

after definite consumption figures are reached monthly is not satisfactory to us and is hereby refused. I should perhaps point out that the terms you mention, i.e., one, two or three years is contrary to statute and could not, even if the price were satisfactory, be agreed upon.

"I am authorized by my council to make you a definite and firm offer of four cents per thousand gallons for water supplied covering a period of five years under and subject to all the terms, conditions and requirements of the Oak Bay Act, 1910, Amendment Act, 1911."

"This offer is based on our desire to bring to a conclusion negotiations that have lasted altogether too long and we should be glad to hear of your acceptance of it, when the necessary documents can be drawn and signed. Failing acceptance be good enough to answer our communication of the 5th inst. addressed to the City Council with reference to a joint suit before a judge."

"Accept, please, the writer's appreciation of your expression that you desire amicable relations to exist between the two bodies, and may I add that as far as Oak Bay is concerned no other relationship would be allowed to exist."

**LITIGATION**

It is almost certain the city will reject the counter proposal, in view of the fact that the eleven-cent offer was hailed by city water officials as the last word in any reduction that could be held out. Unless some unforeseen development takes place in the next few days Oak Bay and the City will be joined in the first litigation affecting either side in many months.

The proceedings are expected to take the form of a reference to a judge in chambers to settle the basis of argument, as to what enactment applies. Once this is done arbitration before a special arbitration board or before the provincial water commissioner would follow. So far neither side has expressed any view as to what procedure would be necessary to secure arbitration on the issue, once the legal difference of the basis of argument have been removed.

## GENERAL STRIKE IN BRITAIN ENDS; ONLY MINERS IDLE

(Continued from page 1)

The general strike began last Monday week at midnight, being called to support the miners in their stand against a reduction of pay and lengthening of working hours.

**MILLIONS IDLE**  
The number of men who responded to the strike call was never definitely fixed, either by the Government or the Trades Union Congress, but some authorities placed the figure as high as 5,000,000, including the 1,120,000 miners.

The first effect of the strike was to tie up transportation and the Government hurriedly recruited volunteer workers. Measures planned long in advance to cope with any such contingency were put into effect to assure the population's food.

## REFORM FROM WITHIN

The experience of the last provincial election, when a third party split the vote and re-elected an unpopular government, Mr. Davis declared, showed that a party should be reformed from within if it needed reform. A party could not be made strong by a process of disintegration, he remarked.

"Let our party profit by the mistakes of the past," he urged. "It is only the fool who does not profit by his mistakes. The wise man profits by them."

The Conservative Party, Mr. Davis said, must not be the slave of old ideas. He urged Conservatives to survey the present situation and adjust themselves to new ideas.

## DEFENDERS MEMBERS

The Cowichan-Newcastle Member defended the work of the Conservative Opposition in the House. The last session of the Legislature, he affirmed, had been the most nerve-racking that the Government had ever experienced.

R. H. Pooley, Opposition Leader in the Legislature, assured the gathering that the Opposition was a united body. If the whole Conservative Party had been as united as the members in the House, he said, the Government would not be in office today. Mr. Pooley praised T. G. Coventry, M.P.P. for Saanich, as the most active representative of the riding had ever elected.

W. J. Stubbs, president of the Saanich Association, presided.

## JOSEPH M. DENT DIED IN LONDON

London, May 12—Joseph Malhaby Dent, publisher and member of the British Archaeological Society, died yesterday. He was seventy-seven years old. Among his publications were the Temple Shakespeare, Temple Classics and Everyman's Library.

## MINOR DISORDERS

There were minor disorders in various parts of the country. Most of these disturbances, which arose through attempts to stop the operation of volunteer services, were attributed, however, to disorderly elements rather than to the strikers.

The termination of the general strike was based on negotiations conducted unofficially by Sir Herbert Samuel, chairman of the Royal Coal Commission, and Chairman Pugh of the general council of the Trades Union Congress, the latter accepting Sir Herbert's proposal as a basis for resumption of negotiations.

The news was conveyed to A. J. Cook, the miners' chief, as he was leaving the headquarters of his union for lunch. He stood a moment in silence and then said he had received no official intimation from Downing Street.

## SMILED GRIMLY

Frank Hedges, secretary of the Miners' International Federation, then drove up. Mr. Cook ran to meet him and immediately told him the news. The two men looked at each other for a brief moment and then with a grim smile and a shrug of the shoulders, Mr. Cook drove off.

J. H. Thomas, the railwaymen's secretary, who has had so much to do with the peace parleys, was on the verge of tears as he left the conference in Downing Street. Some one asked him if he had anything to say. He shook his head and in a tremulous voice said: "Nothing."

## CHURCHILL SMILED

On the other hand, Right Hon. Winston Churchill, Chancellor of the Exchequer, who is credited with having had much to do with the Government's conduct of the situation, appeared with a broad smile.

## FOR MINERS TO DECIDE

Sir Herbert Samuel, in a statement later said: "If the miners' Federation consents to the basis of the settlement proposed, the Government, I believe, will be fully justified in renewing the subsidy pending negotiations. The miners can restart and the discussions that were interrupted can be resumed. That is the immediate object to be obtained and the matter at this stage rests entirely with the miners' Federation."

## CABINET CHANGE IN GERMAN Y AS PLOT UN-EARTHED

(Continued from page 1)

The seized documents, police said, revealed that the ring-leaders of the conspiracy had maintained a steady correspondence with Wilhelm Hohenzollern, former Kaiser of Germany, and with Bavarian reactionaries like Hitler.

One of the seized letters addressed to the former Kaiser read: "Your faithful followers are unserving in their determination to re-erect in renewed splendor the Hohenzollern Empire in a regenerated and liberated Germany."

Hohenzollern rewarded the writer

of this letter with an autographed photo bearing glowing written praise of the plan.

Among the homes raided were those of Admiral von Schroeder, Major Hans von Oesenst, editor of The Fascist Deutsche Zeitung, and Dr. Heinrich Claus, chairman of the Pan-German League.

## BREAKDOWN ALLEGED

One of the letters alleged to have been found at the home of Dr. Claus was addressed to Major von Hindenburg, son of the President, which said the parliamentary system had broken down and that a dictatorship was Germany's only salvation.

The police believe the execution of the plot had been held in abeyance awaiting for an opportune moment such as has been created by the present Cabinet crisis or the threatened confiscation of the property of Germany's former rulers.

Count von Westarp, Conservative, to-day created excitement in the Reichstag when he denounced the police raids, which began yesterday, as unconstitutional.

## NICOLAUS HOME SEARCHED

Among the homes searched was that of Colonel Nicolaus, who headed the espionage system of the general staff during the World War. The plans seized, police said, included a complete roster for a Fascist cabinet. Dr. Neumann, burr-master of Liebeck, was slated for Chancellor; General von Moell, Minister of War; Dr. Hugenburg, a Nationalist member of the Reichstag, financial sponsor of reactionary publications; Finance Minister, and Baron von Helldorf, whose home was raided to-day, for Food Dictator.

## PILSUDSKI AT HEAD OF FORCES OF REVOLUTION ENTERS WARSAW

(Continued from page 1)

are said to be marching on Warsaw with troops to overthrow the new Government headed by Premier Witos.

The Government is taking energetic measures for defence and has declared a state of martial law in Warsaw.

## LOYALTY URGED

Paris, May 12—The Havas Agency's Berlin correspondent says the Polish Agency there reproduces an official note from Warsaw to-day indicating a military coup d'etat was feared and that the Government was calling on the troops to remain faithful.

The note declared certain parties directed by generals were resolved to violate the constitution and that the President of the State Council had warned them of "the fateful consequences" of such an attempt. "The legal Government," the note says, "will know how to take proper defence measures and will rely upon its faithful troops to preserve it from the generals' invasion."

## KEEP THEM SEPARATE

Never mix fresh milk with that which has stood around for a few hours, unless you are going to use them immediately for cooking purposes.

## HELP YOURSELF TO HEALTH
